Goldhurst at New York Hearing Denies Prelate Was Partner or Was Used as a "Lure."

By the Associated Press.

NEW YORK, June 25.—That the brokerage account of James Cannon Jr., Bishop of the Methodist Episcopal Church, South, was speculative, was admitted today by Charles W. Kable when the search for the assets of the bankrupt stock brokerage firm bearing Kable's name was resumed at a referee's hearing.

Kable explained the firm's method of selling securities on the part payment plan, the securities to be delivered when the customer had paid in full for them.

A photostatic copy of the Bishop's ledger account was shown to the witness, and C. Edward Benoit, attorney for Miss Anna Falans, trustee in bankruptcy, asked: "Don't you see that Bishop Cannon's was really a speculative account, that those securities were not held for any length of time?"

NEW YORK, June 25.—The stock deal Bishop James Cannon Jr. of the Methodist Episcopal Church South, had with Kable & Co., an alleged "bucket shop," was inquired into during an examination yesterday of Harry L. Goldhurst, head of the firm, before Robert I. Stephenson, referee in bankruptcy.

Goldhurst and Charles W. Kable, a former stock clerk who lent his name to the company, are under Federal indictment charging use of the mails to defraud.

The hearing yesterday, the first since 14 months ago, was held for the benefit of the creditors.

Goldhurst was questioned by S. Edward Benoit and Mitchell Fring, attorneys for the Federal Court trustee appointed to take charge of the company's assets.

Replying to questions by Benoit the witness denied that Bishop Cannon was a silent partner in the firm, or that the Bishop's extensive trading account was exhibited to prospective customers as a "lure" or that Bishop Cannon had received commissions for "drumming up trade."

Previous Stock Trades.

During the questioning, Goldhurst made it known that Bishop Cannon's stock trading with the firm was not his first. Goldhurst disclosed that before forming Kable & Co. he had been associated with Elbel & Co., New York, and while with that firm he had closed stock transactions for Bishop Cannon. This was prior to the latter part of 1927, when the Kable firm was organized.

March 17, 1927, Elbel & Co. was attacked as a "bucket shop" in the State courts by Albert Ottlinger, then Attorney-General, and the firm was enjoined from doing business. William J. Elbel, head of the firm, was indicted April 22 in Federal Court, also charged with using the mails to defraud.

Benoit first asked Goldhurst this question: "Didn't you show Bishop Cannon's account to customers—wasn't that one of your sales talks?"

"Absolutely not," answered Goldhurst.

Ledger Sheets Photographed.

The attorney then showed the witness photostatic copies of the ledger sheets in Bishop Cannon's account, asking if the full title and name of the Bishop at the top of the page wasn't in writing larger than the names over other accounts.

"Absolutely not," said Goldhurst.

"Was Bishop Cannon a silent partner in the business?"

"Absolutely not,"

"Did you ever tell Kable he was a partner?"

"No sir, I did not."

"Did you ever tell Kable you relied on Bishop Cannon to build up business?"

"Absolutely not," replied the witness.

Goldhurst is a short, stocky man, 35 years old. He suffered frequently from a faulty memory.

BOULDER DAM BILL
IS PUT IN FULL
FORCE BY HOOVER

President Signs Proclamation After Futile Six-Months' Effort to Arrange Seven-State Compact.

ARIZONA REFUSES
TO DROP OPPOSITION

Executive's Action Permits Steps for Six-State Agreement—Measure in Effect at Once.

By the Associated Press.

WASHINGTON, June 25.—President Hoover today signed a proclamation making operative the Boulder Canyon Dam bill.

Under terms of the Boulder Dam act, six months were allotted for negotiations between states in the Colorado River basin in an effort to obtain a seven-State compact.

This time expired last week. No agreement has been reached and the law provides that a six-State compact may be formed. Arizona has been the dissenting State and so far has shown no sign of withdrawing its opposition.

The presidential proclamation places in full force all provisions of the act and was necessary before steps could be initiated looking to a six-State agreement.

Hoover's Proclamation.

The proclamation reads: "By the President of the United States of America."

"Pursuant to the provisions of section 4 (A) of the Boulder Canyon project act, approved Dec. 21, 1928 (45 Stat. 1037), it is hereby declared by public proclamation:

(a) That the States of Arizona, California, Colorado, Nevada, New Mexico, Utah and Wyoming have not ratified the Colorado River compact mentioned in section 13 (a) of said act of Dec. 21, 1928, within six months from the date of the passage and approval of said act.

(b) That the States of California, Colorado, Nevada, New Mexico, Utah and Wyoming have ratified said compact and have consented to waive the provisions of the first paragraph of Article II of said compact, which makes the same binding and obligatory only when approved by each of the seven states signatory thereto, and that each of the states last named has approved said compact without condition, except that of six-state approval as prescribed in section 13 (a) of said act of Dec. 21, 1928.

All Conditions Fulfilled.

(c) That the state of California has in all things met the requirements set out in the first paragraph of section 4 (a) of said act of Dec. 21, 1928, necessary to render said act effective on a six-state approval of said compact.

(d) All prescribed conditions having been fulfilled, the said Boulder Dam project act, approved Dec. 21, 1928, is hereby declared to be effective this date.

"In testimony whereof I have hereunto set my hand and caused the seal of the United States of America to be affixed."

Done at the city of Washington this twenty-fifth day of June, in the year of our Lord One Thousand Nine Hundred and Twenty-nine, and of the Independence of the United States of America, the one hundred and fifty-third.

Signed Herbert Hoover.

By the President: Henry L. Stimson, Secretary of State."

MACDONALD CONFERS
WITH DAWES AND GIBSON

British Premier Says He Expects Session to Be Conducted.

By the Associated Press.

LONDON, June 25.—Premier MacDonald announced tonight that he had talked with both American Ambassadors Charles G. Dawes and Hugh S. Gibson, and hoped before many days they would be in position to make a definite announcement of how negotiations for naval disarmament were to be conducted.

In a speech at a Labor reception he said he would put it no higher at present than that he was hopeful. Among matters concerning which he saw possibility of definite announcement was where a conference was to be held and the objects to be aimed at.

BUS PERMIT SOUGHT
ON VANDEVENTER AV.

Street Car Company to Begin Tearing Up Tracks There in Two Weeks.

The Public Service Co. today sought a permit from the city to operate busses over Vandeventer avenue, replacing the Vandeventer street car line which is to be abandoned by permission of the State Public Service Commission. After a meeting of the Board of Public Service, the permit application was referred to Director of Streets and Sewers Brooks.

Permits to operate busses are obtained from the Board of Public Service and may be terminated by the board on 30 days' notice after a hearing. The ordinance under which the permits are issued fixes the rate of fare at not to exceed 10 cents. Bus permits now being granted to the company state that fares charged shall be the same as those charged on street cars.

The Vandeventer line now runs from Magnolia avenue, at Tower Grove Park, on the south to Natural Bridge avenue on the north. The application is for permission to operate busses from Natural Bridge avenue to Chouteau avenue, although it was planned, an attorney for the company told the Board of Public Service, to run the busses only as far south as Market street. The Sarah street line would handle the traffic south of Chouteau avenue and Market street.

The company has announced neither the schedule upon which its busses will be operated nor the number it contemplates putting in service. In the past, the Vandeventer line has been one of the most important in the city.

Tearing up the street car tracks and repaving Vandeventer avenue—which has been widened recently—with smooth granite blocks and asphalt in place of the present rough granite blocks, would begin within two weeks, board members were told and would require three months to finish. During that time there will be no transportation facilities on Vandeventer avenue.

The Public Service Co. now operates nine bus lines.

\$7000 Damage to Structure
Twentieth and East Grand
Avenue.

An explosion attributed to a line of fumes wrecked the upper part of the three-story Tower Hotel, the northeast corner of Twentieth street and East Grand avenue, shortly before 9 o'clock this morning, causing a fire which for time threatened to destroy the building. Damage was estimated at \$7000.

The force of the explosion smashed windows in the hotel, hurled sections of brick wall in the street, endangering passers. Two guests were trapped by a fire in a second-floor room, but a man ascended by a ladder and then to a fire escape. Others in the building walked out unharmed.

Traffic in the circular driveway around the North Side water tower, which the hotel faces, was tied up for an hour and Grand boulevard cars were switched back to Florissant avenue.

Searching in the burned building, firemen found a charred mattress which smelled of gasoline, a third-floor room.

When the explosion occurred, sections of brick wall tumbled in the street, narrowly missing a car. O. H. Falkenberg, a street conductor, who ran to a corner drug store and telephoned the alarm. Immediately after the blast, flames leaped from the third-floor windows.

Most of the guests of the hotel were workingmen and all were away at the time except the operator of the hotel, police said. Mrs. Louise M. B. who left yesterday to visit relatives in Missouri.

The property is owned by Betty Davis, 534 Olive street, who said he had notified Mrs. Davis, who vacate July 1. The first floor occupied by a meat market and a saloon.

Pair Detained in Jewelry Robbery

BENJAMIN BOGEAUS AND WIFE

THE former Ethelind Terry, musical comedy star and her husband are held for questioning in Chicago in connection with a jewelry holdup they reported early Monday. She gave the value of the diamonds taken from her at less than \$11,000, her husband said they were worth \$30,000. His brother also was arrested.

Chicago, June 25.—Mrs. Benjamin Bogeaus, the former Ethelind Terry of the musical comedy stage, and her husband, a real estate dealer, were held for questioning today in connection with the theft of Mrs. Bogeaus' jewels yesterday.

Deputy Commissioner John P. Stege said Mr. and Mrs. Bogeaus were in disagreement over the value of the jewelry. Bogeaus valuing it at \$30,000 and Mrs. Bogeaus at less than \$11,000. Stege also said the jewels had been insured only a few days ago.

Bogeaus' brother, Maurice Bogowski, who has been in custody several times in recent years, also was arrested for questioning. Mrs. Bogeaus, an Ethelind Terry, appeared in Chicago last winter with a Ziegfeld show, and met Bogeaus, to whom she was married after a short courtship.

Bogeaus reported early yesterday that they had been robbed by two young men, who apparently followed them from a cabaret to the North Side apartment hotel where the jewels were.

The robbers held them up inside the hotel lobby, Bogeaus said. After taking the bracelets and rings from Mrs. Bogeaus, the men fled. Bogeaus said he had recently met one of the robbers, but refused to give his name.

Bogowski was arrested when it was learned that the night clerk in the hotel had been hired by Bogeaus several days ago upon Bogowski's recommendation.

Bogowski's police record shows back to 1918 and includes charges of robbery, one of forgery and one of murder. He was twice convicted on the murder charge, but the verdict each time was reversed, and the case remanded by the State Supreme Court.

REED ARGUES APPEAL IN \$1,352,548 MULE CASE
JEFFERSON CITY, June 25.—Former United States Senator James A. Reed of Kansas City headed the legal array before the state supreme court today in submitting arguments on appeal from a decision of Judge Latsch of the Jackson County Circuit Court, reversing a \$1,352,548 judgment in the Kansas City "mule" case.

The verdict, one of the largest in the history of the State, was awarded to the Josiah C. Wolcott estate in December, 1925. It was the result of a suit filed to collect one-sixth of the profits made by the late Josiah C. Wolcott, who was a partner in the business. The profits of the concern were estimated at about \$1,100,000. The company furnished animals to the allied governments during the war.

After the verdict the decision was reversed by Judge Latsch and an appeal from his reversal taken to the supreme court. Reed is chief counsel for the Wolcott estate.

MEXICO CITY, June 25.—Fifteen Federal soldiers were killed and an officer and 15 others wounded Sunday when a Federal aviator bombed by mistake a group of Federal soldiers at Barranca Tamara, State of Jalisco. He thought they were rebels.

Dispatches to Excelsior say that the Secretary of War has ordered an immediate and thorough investigation.

The dispatches add that an aviator of the Esquadilla de Pablo Sider, who had received orders to explore the region around Barranca, bombed a group of suspicious looking soldiers. It was later learned that these were Federal soldiers entrenched against an expected attack by rebels.

FRANK MARLOW, BOXING PROMOTER, FOUND MURDERED

Close Friend of Arnold Rothstein Shot to Death Near Cemetery on Long Island, New York.

By the Associated Press.

NEW YORK, June 25.—The mysterious killing of Frank Marlow, boxing promoter, former night club owner and friend of Arnold Rothstein, is thought by police today to be due to a beer war.

Marlow was found by two motorists in a clump of bushes near the Flushing (L. I.) cemetery and died a few minutes later.

Police were inclined to think that he had been killed by gangsters. They found he had dined alone last night in a restaurant, but his later movements were not learned.

Marlow, whose correct name was Frank Curto, was 38 years old. He had returned to this city Friday from Boston where he had promoted boxing matches.

Promoter for Years.
He had been active in the boxing game for years, at one time having been manager of Johnny Wilson, former middleweight champion. He was the discoverer of Jack Delaney, heavyweight boxer, whose contract he sold to Peter Riley for \$50,000. Recently he had been manager of Jack Gagnon, Boston heavyweight, and had returned to New York to arrange a fight at Madison Square Garden between Delaney and Bert Russell, "on the loose." At one time he owned Anne Marone II, on which he made \$250,000.

He was part owner at various times in several night clubs, including the Silver Slipper and the Rendezvous, both in the Broadway theater district, and recently padlocked. He was a close friend of Rothstein, gambler, whose death in the Park Central Hotel has never been solved.

Robbery Theory Discarded.
Police said that robbery was not the motive for the killing of Marlow. They found \$16 in his pockets and various personal belongings including a permit to carry a pistol, issued in 1922. He also had a Boston boxing permit and a membership card issued by the State Athletic Commission at Cleveland.

Police were unable to find anyone who heard shots, but residents said two automobiles had passed along the road toward the Flushing Cemetery a short time before Marlow was found. A roundup of his known associates was started by the police. Marlow was married and had a home on the lower East Side in Manhattan.

ITALIAN AMBASSADOR MAKES FORMAL CALL ON THE POPE
By the Associated Press.
VATICAN CITY, June 25.—Pope Pius today received in formal audience the first Ambassador from a King of Italy ever to be duly accredited to the Holy See.

The Ambassador was Count De Vecchi di Val Cismon, one of the leaders in the Fascist march to Rome in 1922. His reception was made possible by the later treaties of Feb. 11, which established the Vatican state as a recognized entity within the territory governed by the Quirinal.

The epoch-making exchange of diplomatic courtesies was marked by a luncheon ceremony outdoors, but once the formality of Count De Vecchi's presentation of his credentials

was concluded, the Pontiff and the Ambassador chatted with each other in the private library of the Pope.

HORSE SOLD FOR \$70 WINS HUNGARIAN NATIONAL DERBY
BUDAPEST, June 25.—Condemned and sold a few days ago by his former owner for \$70 because he considered him "fit only for the plow," a three-year-old horse named Rabalo today won the Hungarian National Derby and a \$10,000 prize against a field of 21 of the country's thoroughbreds.

When Rabalo's old master consigned him to the farm he was bought by a local tavern keeper who found him too short to hitch to a cart. He turned him over to a friend, who in a few months prepared him to race again.

'Never Intended to Kill Her,' Declares Snook, Discussing Affair With Ohio State U. Student

Awaiting Trial for Murder, He Says His Mind 'Must Have Snapped'—Asserts Woman Never Wanted to Marry Him.

(Copyright 1929.)

COLUMBUS, O., June 25.—"My mind must have snapped. I never intended to kill her. I am confounded by the plight I find myself in. My mind is in a daze. It all seems like a dream—a weird, unbelievable nightmare. I don't understand it even now."

Dr. James H. Snook, 49 years old, college professor of Veterinary Medicine, confessed slayer of Miss Theresa Hix, 24-year-old Ohio State University student, made these assertions in an interview in the Franklin County jail today.

He said he "cannot yet believe" he committed a crime that may send him to the electric chair. "Surely," he said, "I never have shown any criminal instincts. How did I come to do this? I thought I was like every other normal man."

He admitted his predicament was a warning to every married man who forgets home ties for the companionship of a young woman. "I never thought my affair with Miss Hix would lead to this," he said.

Trial Set for July 22.
Snook goes to trial on July 22 on the charge of a first-degree murder. He will be defended by two attorneys, the former Judge John F. Seidel and E. O. Ricketts.

"I feel keenly the disgrace this has brought upon my wife and baby," said Snook. "The thing that is now buoying up my courage is my wife's loyalty."

"Where you in love with Miss Hix?" he was asked. "No," he replied. "It was a case of companionship with a most desirable girl—that is, she was desirable at first until she sought to interfere with my private affairs."

Snook said he first met Miss Hix three years ago. They became friends and often went motorizing together. They exchanged books on sex. He found that she had read considerably more on such subjects than he had, he said.

"I refute the statement of her father that I broke down her moral reserve," said the professor. "That is not true. She was perfectly willing to enter into an arrangement with me."

Woman Wouldn't Marry Him.
Miss Hix never wanted to marry him. In fact, she said she wouldn't marry him on a bet.

Snook declared. She never asked him to divorce his wife. They planned to go along as they were going until she left school, and then he expected that she would pass out of his life forever.

He did not educate her, as reported, although he lent her money which she always insisted upon paying back. Asked to describe Miss Hix, he said:

"She was very dignified and neat in appearance. She was studious, too. Ordinarily she was calm but when she was aroused she was hard to deal with. She was quite athletic."

Snook scoffed at the contention of the prosecution that the crime was premeditated. The former world's champion pistol shot, as Snook was said had planned the slaying, he could have ambushed Miss Hix and killed her with a pistol, or he could have resorted to drugs which were available at the university.

"Was Miss Hix addicted to drugs, as reported?" he was asked. "No," he replied. "Once she asked for some cocaine to remove a spot on her ear but that was the only time. Neither of us was addicted to drugs."

Overwhelmed With Regret.
Snook said Miss Hix always wanted him over week-ends when she had time off.

At the time of the murder, he said, he was harassed by many worries. There was the closing season at the university which piled up work on him; there was internal strife on the faculty; he was on edge over the necessity of getting property ready for a new tenant, and his manuscript for a magazine was overdue. Then, too, he was getting ready for a reunion near Cincinnati.

Miss Hix objected to his going over the week-end with his wife and baby to the reunion, and this led to a quarrel while they were riding in his blue coupe. The quarrel ended in the killing of Miss Hix.

"Have you any regrets?" Snook was asked. "My mouth quivered as he replied: "Regrets? I am overwhelmed with regret. I am in a daze. Everything has come down on me, crushing me. I can't tell you in words how much I regret."

When Mrs. Hix entered the room, Miss Hanks said, two musicians, Felix Papilio and Harvey Pardo, were there on what she said was a business errand. Mrs. Hix, she continued, turned to the young men and said: "You had better beat it if you don't want your faces in the paper."

Whereupon they departed, she testified. The men, Dr. Snook testified, that portion of her testimony and disclosed that they had called the police.

Mrs. Hugo testified that she did not expect to find her husband in the studio but did intend to "have a talk" with Miss Hanks and dissuade her from "running around with him."

ACCIDENT VERDICT IN DEATH OF GIRL STRUCK BY AUTO

Mildred Bishop, 8 Years Old, Succumbs at City Hospital, Bringing 1929 Motor Fatalities to 71.

A Coroner's verdict of accident

was returned today in the case of Mildred Bishop, 8-year-old daughter of Mr. and Mrs. Walter Bishop, 2324 Folsom avenue, who died at City Hospital last night of a fractured skull and crushed chest suffered Sunday when she was struck by an automobile as she was crossing the street in front of her home.

Witnesses testified that William Witz, 4016A Folsom avenue, driver of the machine, was proceeding at a speed of less than 15 miles an hour when the child ran into the street from between two parked automobiles.

Her death brought the total number of automobile fatalities this year to 71 as compared to 69 at the corresponding time last year.

WOMAN WHO BEAT ANOTHER IN STUDIO FREED AT TRIAL
Mrs. Hugo Released, Withdraws Disturbance Charge Against Mercedes Hanks.

The fight between Mrs. William Hugo and Miss Mercedes Hanks in the Downing Studio in the Odeon Building the afternoon of May 5 was described by the participants in Police Court today. Mrs. Hugo withdrew a disturbance charge she had filed against Miss Hanks but the latter testified in a similar charge she had filed against Mrs. Hugo. Police Judge Beck, however, dismissed the charge, holding that it was difficult to determine the aggressor and that the quarrel did not take place in a private home.

Miss Hanks told of the visit of Mrs. Hugo to the studio, saying that after accusing her of associating with her husband, a musician, she produced two belts and tried to strike her. She described in detail the ensuing struggle, in which a chair leg and a decorative mallet were used as weapons.

When Mrs. Hugo entered the room, Miss Hanks said, two musicians, Felix Papilio and Harvey Pardo, were there on what she said was a business errand. Mrs. Hix, she continued, turned to the young men and said: "You had better beat it if you don't want your faces in the paper."

Whereupon they departed, she testified. The men, Dr. Snook testified, that portion of her testimony and disclosed that they had called the police.

Mrs. Hugo testified that she did not expect to find her husband in the studio but did intend to "have a talk" with Miss Hanks and dissuade her from "running around with him."

ST. LOUIS FIRMS PROTEST AGAINST TARIFF ON HIDES

Eleven Leading Manufacturers Say Proposed Duty Would Greatly Increase Cost of Shoes.

Special to the Post-Dispatch.

WASHINGTON, June 25.—A protest against the proposed tariff on hides, signed by 11 prominent shoe manufacturers, has been filed with the Senate Finance Committee, where the proposal is pending.

In addition, in a campaign to fight the tariff, form letters setting forth that the cost of shoes and other leather products to the consumer will greatly exceed any benefit the farmer may get from the tariff are being sent to legislators and newspapers.

The letters point out the same set of facts disclosed in the Post-Dispatch June 7, when Frank C. Rand, president of the International Shoe Co., said in an interview that a tariff on shoes, hides and leather would increase the revenue of the United States \$2,000,000 a year, but in doing so would add \$80,000,000 to America's annual shoe bill.

The tariff, Rand declared, would not assist the farmer, because hides at best are merely a by-product of meat animals and an increase in hide prices would benefit only the meat packer.

The companies which have signed the protest are: International Shoe Co., Brown Shoe Co., Selz, Schwab & Co., Dunn & McCarthy, Inc., Shelby Shoe Co., the Julian & Koenig Co., R. P. Hazard Co., Freeman Shoe and Manufacturing Co., Freeman-Bedford Shoe Mfg. Co., Nunn, Bush & Weldon Shoe Co., and the Florsheim Shoe Co.

The letters charge that the tariff, in increased shoe prices, will cost Missourians \$1,992,880 annually.

40 AIRMEN RENEW SEARCH FOR MISSING DOLE RACE PLANE

Brother of One of Pilots Lost in Flight to Aid in Hunt on Island of Hawaii.

By the Associated Press.

HONOLULU, June 25.—Eleven airplanes, carrying 40 army men and E. R. Frost, Pelham Manor, N. Y., started yesterday for the island of Hawaii to search the slopes of Mauna Loa for the monoplane Golden Eagle, lost in the Dole flight of nearly two years ago. Four aviators and a woman passenger were lost during the race.

The Golden Eagle, thought by many to have crashed somewhere on the mountain, was piloted by Frost's brother, Jack Frost, San Francisco. This is the second search for the lost plane.

100 PERSONS REPORTED KILLED BY STORMS IN JUGO-SLAVIA

Thousands of Cattle Said to Have Been Drowned—Heavy Damage to Crops.

By the Associated Press.

BELGRADE, Jugo-Slavia, June 25.—Press dispatches from Jugo-Slavia points report more than 100 persons killed in the last two weeks by violent lightning storms. Thousands of cattle have been carried away by floods and there has been immense damage to crops and vineyards.

OUSTED OFFICERS
OF BENTON MINERS
LOCAL INDICTED

Four Charged With Conspiracy to Defraud in Alleged \$26,000 Shortage in Franklin County.

By a Staff Correspondent of the Post-Dispatch.

BENTON, Ill., June 25.—An indictment charging conspiracy to defraud in connection with an alleged shortage of \$26,000, was voted by the Franklin County grand jury today against four ousted officials of the Orient local of the United Mine Workers of America, which includes about 2000 men employed at Orient mine No. 2 near West Frankfort.

The indicted officials—Al Metten, president; John Patterson, recording secretary; Joseph Rogers, financial secretary, and C. B. McDonough, treasurer—were voted out of office at a meeting of the local six weeks ago. McDonough disappeared in March following his indictment on an embezzlement charge.

According to auditors employed by the State and International Miners' unions, who are now checking the local's finances, the shortages began in June, 1928, and continued for almost a year. Money was obtained by the officials, it was said, by a process of notifying the mining company to deduct assessments ranging from 25 cents to \$1 from the wages of each miner on the representation that such sums were to be paid as death benefits to the families of deceased miners.

The audit has been going forward with difficulty owing to the fact that the books of the local are missing. Shortly before Treasurer McDonough was indicted, charged with embezzling funds due the International union, Secretary Rogers reported that he had been held up after leaving a meeting and robbed of the books. The auditors, therefore, have been making their check with the payroll books of the coal company and with information obtained from members of the union.

Last month, seven officials of

Madison local No. 12, including the president, John Perry, the secretary, Elmer Meyers, and the treasurer, George Ross, were indicted on charges of embezzlement involving \$5000. The Orient local is said to be the largest in Illinois.

FINDS THOUSANDS OF VETERANS LACK HOSPITALIZATION

Legion Inquiry Reveals Government Hospitals Have Inadequate Facilities to Give Needed Care.

(By a Staff Correspondent of the Post-Dispatch.)

WASHINGTON, June 25.—An investigation made by the American Legion of the lack of Government facilities to care for mentally ill veterans of the World War has brought to light the fact that thousands of veterans are still awaiting hospitalization and that some are in custodial charge of jails.

Commenting on the lack of equipment to take care of the psychopathic cases arising from the war, an announcement yesterday from the legion said: "The Government hospitals are unable to receive them because of a lack of beds. State institutions are overflowing. Patients are sleeping on the floors of State hospitals and some have long waiting lists. No Beds Available."

"Under the present law," the announcement said, "all veterans have the right to Government hospital treatment. But no beds are available," the statement added. "Yet the load of mental patients is on the increase and will not reach its peak, according to Veterans' Bureau figures, for at least a dozen years."

Taking a report on conditions in Illinois as typical, the statement continued: "There are 2351 mentally ill veterans in Illinois, of whom 1193 are neglected so far as hospitalization is concerned, men who need treatment and possibly care the rest of their lives. Of these, 361 are drawing some compensation from the Government, but are suffering from different forms of mental illness, and 832 who are not drawing compensation and need treatment and care."

Will Be No Room for Years. According to a compilation of inmates of the different hospitals reported by John A. Hartman of Chicago, field secretary of the Legion Rehabilitation Committee, there are 667 men in North Chicago Hospital and 184 in Edward Hines Jr. Hospital, both Government institutions. There are 907 veterans in overcrowded State institutions. "The 907 in the Illinois State institutions are there because there is no available room in Government hospitals, and no immediate prospect of their being a bed available." There will be no room for years, and then only in the event Congress authorizes new and additional construction.

"The problem of what to do with the 2351 mental cases of veterans in Illinois is a serious one. A similar problem confronts other states."

Congress failed to pass a bill (H. R. 15,321) at the session ending last March 4 to authorize \$11,480,000 additional hospital construction which would help provide for the care of mentally ill veterans. The American Legion is continuing its efforts to have this construction authorized.

Universal Conscription Favored by Disabled Veterans.

By the Associated Press. DETROIT, Mich., June 25.—Recommendations for a more adequate national defense, civil military training camps, restricted immigration, a universal conscription law and increased allowances for National Guard units were endorsed yesterday by 6000 delegates to the ninth annual convention of the Disabled American Veterans of the World War, at the opening business session of the convention.

The report of the organization's Executive Committee, adopted without debate, also suggested that the Veterans' Bureau regional offices establish employment agencies for disabled men and that there would be a merger of all Federal offices for the relief of veterans.

It also was recommended that the Veterans' Bureau establish a system of home treatment for tubercular cases with a maintenance allowance for each patient. Charges were made that the Veterans' Bureau functioned only when demands were made on it through a routine full of red tape. "It is most regrettable," said National Commander Millard W. Rice in his annual report, "that the administration of the Veterans' Bureau has been, and still is, such that he gets who demands, and that on the other hand, he who asks nothing gets nothing, and those who are un-informed and inexperienced have to be penalized."

Vestris Hearing Ends.

By the Associated Press. LONDON, June 25.—Taking of testimony at the Board of Trade's inquiry into the sinking of the liner Vestris was concluded today with reiteration of testimony that overloading was not a material factor contributing to the disaster. Attorney Stephens, representing the Underwriters and some of the passengers, opened the argument for counsel. He said his submission was that the vessel was in an unseaworthy condition. This unseaworthiness, he charged, existed in three respects, first, overloaded; second, lacked stability; third, she

had a number of hatches which could not be dealt with after they were not closed and which, as they vessel sailed, remained open.

OLIVE AND LOCUST, FROM NINTH TO TENTH!

French Humorist Dies.

By the Associated Press.

PARIS, June 25.—George Court-
teline, one of the most noted hu-
morists in France, died today on his
seventy-second birthday. The
author underwent the amputation
of a leg four years ago to halt the
spread of an infection, and his
other leg was amputated last week.

\$15,000,000 U. S.
DEPOSIT ON LEEVE
PROJECT SOUGHT

Southeast Missouri Land
Owners Demand That
Amount in Reply to Con-
demnation Suits.

A \$15,000,000 deposit in Federal
Court, to cover all damages
in the Missouri floodway, was de-
manded in an answer yesterday to
the Government's condemnation
suits for the right-of-way of the
setback levee from Bird's Point to
New Madrid.

The petition was forwarded here
from Cape Girardeau, where it was
filed June 14 by Drainage District
No. 23 of Mississippi County as a
corporation. It asked for dismis-
sal of the proceedings unless the
deposit is made. A hearing on the
suits by Federal Judge Davis is
set for tomorrow.

Right-of-way for the setback
levee is the only objective of the
Government's suits. The answer,
however, advances the familiar
contention that flowage rights—the
right to divert flood water over the
five-mile strip between the setback
levee and the present river levee—
should be acquired at the same
time.

One-fifth of the amount men-
tioned in the drainage districts'
petition, or \$3,000,000, has been
appropriated for compensation of
landowners in the right-of-way and
floodway. No basis is given for the
\$15,000,000 estimate.

Coolidge Order Censured.

Describing as arbitrary an order
of President Coolidge last Decem-
ber, authorizing the acquisition of
the right-of-way in advance of
flowage rights, the answer states:
"The Government is using the
order to wrongfully compel own-
ers to accept wholly inadequate
compensation, and, if such com-
pensation is not accepted, deprive
them of any compensation by con-
structing the levee and allowing
the river to run over their lands."

As is generally known, the flood
control act specifically prohibits
any move toward subjecting land
within the floodway to floods until
the setback levee has been con-
structed and flowage rights ac-
quired. The area will not be con-
stituted a floodway by construction
of the setback levee.

That will come only with a 3-
foot reduction in the height of
the riverbank levee at the upstream
end. This lowered section of the
outer levee will be the "fuse plug"
through which excess waters will
pour into the floodway and relieve
strain on main river levees in
extreme floods. Under the flood
control act, the riverbank levee
must be maintained at present
height and strength until construc-
tion and compensation within the
floodway are complete. Army en-
gineers filed the condemnation pro-
ceedings so that construction of the
setback levee, a three-year-job,
could begin at once, and have be-
gun negotiations to obtain flowage
rights within the floodway, in those
three years, without condemnation
wherever possible.

District's Contentions.
Drainage District No. 23 sets
forth in its petition that it com-
prises 20,000 acres within the
floodway and 25,000 outside the
floodway. It alleges the 25,000
acres will suffer damages, through
interference with drainage, for
which no compensation is provid-
ed, and raises the contention that
use of land for a floodway should
not have precedence over its use
for drainage works.

It asserts that Major-General
Edgar Jadwin, Chief of Engineers,
"intentionally and deliberately
attempting to pervert and defeat
the purpose of this act and to
wrongfully deprive this defendant
and others of their property and
to irreparably damage the same by
constructing a levee across drains
and cutting ditches without mak-
ing provision for new outlets."

Questioned on this point, Brig-
adier-General Thomas H. Jackson,
president of the Mississippi River
Commission, said that any inter-
ference with drainage would be
temporary and would be eliminat-
ed by the Government at its own
expense.

AUSTRALIAN BUSINESS MEN
TO MAKE TOUR OF U. S.

MELBOURNE, June 25.—Plans
have been made for reciprocal
tours by parties of business men
and others between Australia and
the United States. The purpose is
to promote closer relations be-
tween the English-speaking races.

The first tour will be that of a
specially organized party of Aus-
tralians who will leave Sydney on
July 11. Provision is to be made
for their reception in the United
States by chambers of commerce
and other organizations.

Arrangements also are being
made to insure that from the time
of their arrival in San Francisco,
Aug. 2, until their departure from
Vancouver, Oct. 16, opportunities
will be given to see the true life
of the American people and the
industries of the country. Pro-
vision has been made, it is stated,
for a special reception at Wash-
ington. The party probably will
present an address of good will to
President Hoover.

Stolen Auto Recovered.

A small coupe taken from John
Murphy, 4575 Gibson avenue, May
3, while it was parked near Art
Hill in Forest Park, was found by
police yesterday at 6442 Nashville
avenue. A man residing at that
address said he bought the ma-
chine, but was unable to show a
bill of sale. He is being held.

NEW WOOLWORTH BUILDING AT EIGHTH AND OLIVE PLANNED

Erection of Four-Story Structure
to Replace One Wrecked by
Fire to Begin Soon.
The Woolworth building, on the
southeast corner of Eighth and
Olive streets, which was destroyed
by fire May 21, will be replaced by
a four-story structure. Construction
will begin as soon as the
debris has been cleared away,
probably within a week.

The new building will cost about
\$250,000, according to W. M.
Smith, local manager for the F. W.
Woolworth Co., which holds a 39-
year lease on the corner. The new
building will house a Thompson
restaurant on the 1st floor, while
a mercantile concern will occupy
the second. The Woolworth com-
pany will occupy the remaining
floors.

To Start Ocean Flight July 4.

By the Associated Press.
MILAN, Italy, June 24.—Capt.
Adam Kowalczyk and Capt. Wod-
zimierz Klisz, who are planning a
flight from this city to Chicago, by
way of Dublin, have chosen July
4 as the date for their take-off.
They explained that they selected
Independence day for the start of
their venture as a tribute to
America.

SAVES THREE PERSONS STRUGGLING IN WATER

Peter Hughes Rescues Three
Men and Girl but Fails to
Ask Names.

Three persons—a man and
two women—struggled until exhausted
save another man, their comp-
anion—were rescued from the
River near Cedar Hill, Mo., where
they were swimming Sunday.
Peter Hughes, an insurance man
of 3445 Hartford street.

The names of the swimmers
unknown to Hughes, he said today
after friends had learned of his
rescue. He declared that he
merely assisted in the rescue
the first swimmer and praised
girl, whom he described as ab-
out 20 years old, and the other
for their pluck.

Standing on the shore with
father-in-law, Anton Baur of
Hartford street address, Hug-
heard the cries of the man. On
riving at the scene, he saw the
rescuers were about to be car-
ried down by the drowning man. Fu-
clothed he leaped into the stream
broke the hold of the frantic man
and swam to shore with the
making two more trips to get
other swimmers.

Hughes went for a change
clothing without ascertaining
their names. With his family,
was spending the week-end at
cottage of Mrs. Nettie M. Guy
of 3445 Hartford street.

RETIRED RAIL PRESIDENT DIES

Charles M. Levy, Former Western
Pacific Head, Succumbs.

By the Associated Press.
NEW YORK, June 25.—Charles
M. Levy of San Francisco, former-
ly president of the Western
Pacific Railroad, died last night.
He was 70 years old.

Mr. Levy, who retired from busi-
ness about three years ago, was
completing a trip around the world
when he became ill here.

Sunday Show at Louisiana.
Boyd, manager of the Star Theatre,
Special to the Post-Dispatch.

LOUISIANA, Mo., June 25.
Sunday movies were inaugurated
Sunday for the first time in
cent years in Louisiana, by W.
Boyd, manager of the Star Theatre.
A matinee was given at 2:15 p.
m. and another show beginning at
p. m. The evening show was tim-
ed so as not to interfere with church
services. The attendance was good.
Manager Boyd stated. There is a
city ordinance here prohibiting
motion picture shows on Sunday.

Inquiry Into Plane Crash.
By the Associated Press.
LONDON, June 25.—The Air Ministry's inquiry into the crash of the Imperial Airways liner City of Ottawa, June 17, causing the death of seven persons, was opened today with an address by Sir William Jowett, Attorney-General. Sir William said the cause of the accident was the failure of the engine caused by the breaking of bolts holding a connecting rod bearing together.

DR. CLARENCE C. LITTLE SUES FOR DIVORCE

Details of Complaint of Retiring Head of Michigan U. Withheld.

By the Associated Press.
ANN ARBOR, Mich., June 25.—Dr. Clarence Cook Little, retiring president of the University of Michigan, last week filed suit in Circuit Court here for divorce from Mrs. Katherine Andrews Little. It became known last night.

Delay in learning of the suit was caused by a court order suppressing the plea until the date set for its hearing, August 26. The order also made it impossible to ascertain certainly the allegations upon which President Little's action is based. From good authority, however, it was learned the principal item is "incompatibility of temperament."

Dr. Little left here Saturday for Mount Desert, Me., where he will conduct cancer research work, and Mrs. Little is thought to be visiting two sons who are students at a school near Boston. Dr. Little resigned about two months ago under pressure from a board of regents which did not sympathize with his views or plans.

Apparently not even intimate friends of the pair were apprised of the divorce action and the University campus today was full of speculation concerning details of the disagreement. Not even a rumor of a separation had been heard prior to last night.

Dr. and Mrs. Little were married in 1911. They have, besides the two boys, a daughter who is in high school here. Mrs. Little is a daughter of Robert Day Andrews, architect, of Boston and Brookline, Mass.

WOODMEN OF WORLD OFFICERS LOSE INSURANCE RATE FIGHT
Colorado Supreme Court Rules Suit Against New System Must Be Tried.
By the Associated Press.
DENVER, June 25.—Suit against officers of the Woodmen of the World seeking to prevent them from putting into effect a new system of life insurance must go to trial in the Denver District Court. The Colorado Supreme Court so ordered yesterday in denying the officers' petition for a writ of prohibition. Approximately 113,000 members throughout the United States are affected by the suit. Policy holders in Colorado, Utah, Idaho and Montana filed the suit several weeks ago, alleging that, if the new insurance system became effective, hundreds of aged members would be unable to pay

the higher premiums and would be forced out of the order. They asserted that the new insurance rates were adopted illegally at the annual convention at Oakland, Cal., last year.

1 1/2 ton Reo Speed Wagon in service of Pratt & Whitney Aircraft Co., Hartford, Conn.

Read These Proved Facts

On July 1st, 1928, there were 96,481 Reo Speed Wagons registered in the United States.

This was 4,756 more than had been sold in the U. S. during the entire 6 1/2 years from Jan. 1, 1922 to July 1, 1928.

93.2% of all the Reo Speed Wagons sold in the U. S. the previous 7 1/2 years were still registered July 1st, 1928.

80.3% of all the Reo Speed Wagons sold in the U. S. the previous 8 1/2 years were still registered on July 1st, 1928.

And 50.8% of all Reo trucks sold since 1913 were still registered on July 1st, 1928.

Today Reo engineers, in their defeat of Friction and Vibration, have designed and built an even greater measure of efficiency, economy and long trouble-free life into Speed Wagons of 1/4 to 3-ton capacity.

They have added features in design and manufacture that establish an entirely new conception of commercial transportation. Passenger car speed, flexibility and economy of operation have been blended with brute strength to offer industry 1/4 to 3-ton hauling like men have never known before. And above all, Reo engineers have made these qualities lasting.

Buying any truck without first investigating these Speed Wagons, is a mistake no thinking buyer will make.

Reo Speed Wagons are offered in 14 wheelbase sizes—from 115" to 179". Chassis priced from \$800 to \$2,200. F. O. B. Lansing. They incorporate such modern-day advantages as 4-forward speed transmission, 4-wheel, 2-shoe internal hydraulic brakes, 6 cylinder engine, 7-bearing crankshaft, Myers Built-in chassis lubrication and other refinements.

Call your Reo dealer. One of the Reo Transportation Specialists who have studied and solved transportation problems for hundreds of truck owners will call and discuss your transportation needs, without obligation. Reo Motor Car Company, Lansing, Michigan.

always been an outstanding feature of Reo Speed Wagons. Proof—based on the registration records of all Reo Speed Wagons in all lines of industry.

There is just one reason for this almost unbelievable record of continuous service: Reo early recognized the need for tremendous stamina combined with balanced light weight in commercial vehicles—the need for sizing and powering trucks to do their job economically, efficiently and over a long

Shrewd buyers of commercial transportation are not interested in the mileage record of 1 truck, 10 trucks, or even 100 trucks. But they are keenly interested in the average life, under all conditions, of all the trucks made by an individual manufacturer.

Check again the facts quoted above. Here is definite, concrete proof of the long life which has

HELD GUILTY OF KILLING HIKER

Maryland Man Convicted for Chicago Youth's Death. BELAIR, Md., June 25.—Carl Henderson, former-Virginian, now living near Darlington, Md., was found guilty of second-degree murder late yesterday in Harford County Circuit Court, in connection with the death Feb. 18 of Herman Strauss, 19 years old, of Chicago, who was hitch-hiking across the country.

RECEIVER APPOINTED FOR SOUTHERN DAILIES

Loan From Paper Co. Brings Legal Clash Between Partners.

By the Associated Press.

AUGUSTA, Ga., June 25.—Judge A. L. Franklin today appointed Thomas J. Hamilton, editor of the Augusta Chronicle, temporary receiver for the Hall-Lavarre newspapers. At the same time he ordered William Lavarre, part owner of the Chronicle, and three South Carolina papers, to show cause why he should not be enjoined from taking away operating control of the papers from Harold Hall, the other member of the firm.

This action followed the petition brought before Judge Franklin of the Richmond County Superior Court today by Hall. The order was made returnable next Tuesday. In addition to the Augusta Chronicle, the other members of the Hall-Lavarre chain are the Columbia (S. C.) Record, the Spartanburg (S. C.) Herald and the Spartanburg (S. C.) Journal. The petition asked that the partnership be dissolved, that Hall be given ownership of his stock, that the stock standing in the name of Lavarre be delivered to the court and that a stockholders' meeting of the Augusta Chronicle Publishing Co. scheduled for Tuesday, be enjoined. It also asks that Lavarre be enjoined from making any transfer or sale of the stock and that the defendant be restrained from disposing of \$129,000 which was transferred as a trust fund to the account of Lavarre.

Hall charged that Lavarre is incapable of managing the newspaper properties and that Hall himself was to become president and treasurer with executive control over the four papers. Unfavorable publicity resulting from the loan made by the International Paper Co. was given as a reason for the failure of Lavarre to deliver his stock to the International Paper Co. Hall charged that Lavarre tried to get the petitioner to repudiate the contract of the company by requiring it to give better terms.

"Which your petitioner flatly refused to do and notwithstanding

the embarrassment of the situation would not waver on the obligation notified said defendant that he of the International Paper Co."

The instinct of Childhood

is often truer than the wisdom of elders...

—Children quickly sensed the idea behind Ex-Lax and parents followed.

THEY didn't read any books on medicine—but they knew they were taking the right thing.

Ex-Lax quickly became popular with the children because of its delicious chocolate flavor. With the first taste they said "Good-bye" to old-time, nasty-tasting cathartics. But the youngsters liked the effect, too. Ex-Lax was gentle, and never upset their little stomachs.

SO EVERY AGE KNOWS OF EX-LAX—FOR CONSTIPATION. Ex-Lax is effective for them, too. That it is not only delicious

but a scientific improvement upon the harsh, nasty-tasting cathartics it is replacing.

The laxative ingredient of Ex-Lax is a triumph of chemistry. It is first of all safe, and gentle. Does not disturb digestion nor cause griping. It is not absorbed by the system. And it is not habit-forming.

It does not embarrass. Its action is positive, dependable—yet natural.

CHOCOLATE IMPROVES LAXATIVE EFFECT. There are other possible carriers for the laxative ingredient. But chocolate was chosen for Ex-Lax because it is the ideal medium.

Unpleasant tastes may disturb the stomach. But smooth, delicious chocolate encourages digestion.

And chocolate, as employed in Ex-Lax, dissolves completely. Carries all of the laxative into the stomach—in the manner best assuring uniform action and full effect.

So Ex-Lax is not just a "candy" laxative. It is chocolate by the exclusive Ex-Lax process, for sound scientific reasons.

Try Ex-Lax! Let it tell its own story. Your druggist has it in two sizes 25c and 50c. Trial size 10c.

CLEVELAND BEATS

BROWNS, 10 TO 7,

IN FIRST GAME

SPORTSMAN'S PARK, June 25.

Hammering out 15 hits, the

Cleveland Indians this afternoon

won the first game of a double-

header and made it two in a row

over the Browns. The score was

10-7.

The St. Louisans took an early

lead of four runs but Blasholder,

who started, couldn't hold it and

Kinsley, his first relief, also was

hit hard. Coffmann worked part

of an inning and Hopkins, ob-

tained from Washington finished

up. Zinn, though hit hard, lasted

until the ninth when Miljus re-

lieved him.

Fonseca, Zinn, Kinsley and

Badgro hit homers.

Kinsley was charged with the

defeat, Blasholder having left the

game in the fifth with the score

a tie.

Fonseca, with two singles, a

homere and an infield out, drove

in seven runs.

(Play-by-play account and box

score of Browns' first game will be

found on page 16.)

Another Open

Date for Cards

TODAY was the second of

three consecutive open dates

in the schedule for the Cardinals.

The team looked an exhibi-

tion game in Goshen, Ind., to

fill the gap.

After a contest in Galesburg,

Ill., tomorrow, the National

League champions will return

home to open a series at

Sportsman's Park with the

Cubs Thursday.

HUNTER, VAN RYN
AND MISS CROSS
ARE DEFEATED
AT WIMBLEDON

By the Associated Press.

WIMBLEDON, England, June

25.—Francis T. Hunter, ranked No.

2 in the United States, today was

eliminated from the British singles

championship at Wimbledon by

Bunny Austin, youthful English

star. Austin won 6-2, 6-2, 4-6,

6-3.

The rising young English star

had his strokes working in perfect

order, taking the first two sets be-

fore Hunter could get started. The

American won the third set, but he

could not stand the pace in the

fourth set and fell before the fine

placements of his much younger

opponent.

Miss Edith Cross, third ranking

American player, was defeated by

Miss E. R. Clark of Great Britain,

6-3, 4-6, 7-5.

Johnny Van Ryn was the second

American star to fall. The former

Princeton net ace was elimi-

nated by Jacques Brugnon, the

great French strategist, by the

score 1-6, 6-3, 6-2, 6-4.

Wilmer Allison continued the

pace set by his fellow countrymen

by eliminating H. B. N. Cooper of

Great Britain. Allison dropped the

second set, 2-6, but won the others,

6-3, 6-3, 6-2.

J. S. Ollitt won from the Cana-

dian Davis cup player, W. F.

Crocker, 6-2, 6-3, 6-3.

Henri Cochet, the flashy French-

man, was forced to four sets be-

fore he eliminated Gander Dover

of Great Britain, 6-4, 6-4, 4-6,

6-4.

A Hard-Fought Match.

The appearance of Frank Hun-

ter and H. W. Austin on the center

court was long delayed by a fierce

set duel between the German, H.

Houghbauer, an able Italian, De

Murgorio, the Italian Count, win-

ning, 3-6, 6-4, 6-3, 2-6, 6-4.

Christian Bousset won from G.

Crole, 6-4, 6-4, 6-3; H. Timmer

won from J. M. Hilyard, 6-3,

6-0, 6-2.

Mrs. May Sutton Bundy, who

drew a bye in the first round, ad-

vanced to the third round when

Mrs. E. Robertson, her second-

round opponent, scratched.

Players from the United States

started at a fast pace in the sec-

ond round. John Hennessey

defeating R. E. Worthing-

ton, England, 6-4, 6-4.

After George Lott won from L.

de Borman, Belgium, 6-0, 6-1,

6-2; Wilbur Coen stopped C. J.

Robbins, South Africa, 6-1, 6-1,

7-5, 6-1.

F. Landry, England, defeated

Edward Andrews, New Zealand,

4-6, 7-5, 6-0, 6-1.

"Big Bill" Tilden won from C. H.

Campbell, 6-1, 6-2, 6-0, to ad-

vance to the third round.

Miss Willis Scores Shutout.

Miss Helen Willis, the champion,

won her first round match from

Miss G. E. Tomblin, 6-0, 6-0.

The American star was never in

danger of losing a game.

There had been much specula-

tion as to whether Miss Willis, who

likes to play without the imped-

iment of stockings, would follow

her custom at staid and dignified

Wimbledon.

Her tennis was superb, but her

stockings were just ordinary. Every

day sort of apparel. They were

silk, but with nothing fancy at the

heels.

The English girl had a dash

of color, for she wore a pair of

yellow socks rolled over her stock-

ings.

Mrs. Molla Mallory, former

champion of the United States, won

her first round match in the wom-

en's play from Miss A. de Smidt,

South Africa, 6-3, 6-4, 7-5.

Miss Helen Jacobs of the United

States made short work of her

match with Mrs. Billie Neave of

South Africa, winning 6-0, 6-3.

In another first round match

among the women players, Miss E.

A. Goldsack defeated Miss H.

Bourne, 6-3, 6-4.

DENVER GOLFER
LEADS FIELD IN
T-M TOURNEY

By the Associated Press.

OMAHA, Neb., June 25.—With

more than half the field in, Na-

than Grimes of Denver took the

lead in the struggle for medalist

honors in the Trans-Mississippi

golf championship today with a 145

score for the 36-hole test.

Grimes, who equalled the course

record with a 67 to lead yesterday's

field, slumped today and took 78

strokes. He went out in 40 and

returned in 38 and was in trouble

frequently. However, his rivals,

too, were in difficulty and his score

looked good for medalist honors.

Most of the aspirants found the

course slightly tougher today and

scores were generally higher than

yesterday.

One hundred and fifty-five

strokes was regarded as the qual-

ifying limit.

The big feature of the first day's

play was the 67 turned in by Na-

than Grimes, the Denver youth, who

shot a 35 going out and a 52 com-

ing home to establish a new course

record.

Nelson Says

hit to Lind, who touched Blue out and then threw to Fonseca to complete the double play. ONE RUN.

SEVENTH—CLEVELAND—Melillo threw out Myatt. Burnett led to the same way. Lind singled to center. Melillo threw out Zinn.

BROWNS—Manush was safe on Lind's fumble. Schulte lined to Averill. Kress forced Manush. J. Sewell to Lind. O'Rourke was safe when Lind fumbled. Kress stopping at second. McGowan batted for Melillo and was out. Fonseca to Zinn on first.

EIGHTH—CLEVELAND—Brannon went to second base for the Browns. Jamieson doubled to left. Jamieson went to third on a wild pitch. J. Sewell singled to left, scoring Jamieson. It was Sewell's fourth hit. Averill sacrificed. Kinsey to Blue. J. Sewell stole third.

FONSECA singled to right scoring J. Sewell. It was the seventh run driven in by Fonseca during the game. Kinsey was taken out and Coffman went into pitch for the Browns. Falk hit into a double play. Blue to Kress to Blue. TWO RUNS.

BROWNE—Schang singled to center. Ferrell batted for Coffman and forced Schang. J. Sewell to Lind. Blue fouled to Myatt. Badger singled to left. Ferrell stopping at second. Manush grounded to Lind.

NINTH—CLEVELAND—Hopkins, recently obtained from the Washington club, was the fourth St. Louis pitcher. It was Hopkins' first appearance in a game since he joined the Browns. Myatt walked. Burnett struck out. Lind popped to O'Rourke. Zinn lined to Badger.

BROWNS—Schulte walked. Kress singled to left, sending Schulte to third. Zinn was taken out and Miljus went in to pitch for Cleveland. Schulte scored on O'Rourke's foul sacrifice fly to Jamieson. Brannon struck out. Schang forced Kress. Burnett to Lind. ONE RUN.

LES MARRINER WINS
DECISION OVER SAYERS

PEORIA, Ill., June 25.—Les Marriner, former University of Illinois athlete, last night scored a decision victory over Tom Sayers, Detroit heavyweight, in 10 rounds. Marriner used his left hand almost exclusively. Sayers left the ring with his face considerably marked up. Both fought cautiously throughout.

"DARK HORSE" IS
STAR IN "OPEN"
EVENT PRACTICE

By the Associated Press.

NEW YORK, June 25.—One Bill Burke, of Westport, Conn., may not win the national open golf championship at the Winged Foot Club at Mamaroneck, N. Y., this

week, but he needs to do no better than he has done in practice to be well up among the leaders.

The young Connecticut pro, who started the field in waiting to the 72-hole New York State open last week, toured around the rugged Winged Foot layout yesterday in 70 and then to prove it was no

fluke he went around again in exactly the same figures. It might be mentioned here that for this difficult course is 72-36 and for 36 in.

It does not take a lot of figuring to calculate that four rounds of 70 would make a total of 280 strokes. Experts have figured that 296 or a stroke or two more will be good enough to win the open this year.

If they are right, Burke has a lot of margin to work on. On the other hand, the 70's of practice become the 80's of actual championship competition when youngsters and veterans alike crack wide open under the fierce

heat of the sun. Burke is hastening to concede the crown, now worn by Johnny Farrell, to Burke just because of a pair of 70's but on the other hand the experts are not ignoring the Westport youth either.

Burke was not the only one of the 153 entries out for practice. Playing off the tees, around the greens and out of traps and bunkers were such golfing celebrities as Bobby Jones, George Von Elm, Lee Dege, Billy McNeill, Harrison (Jimmy) Johnston, Bill Leach, Johnny Golden, Ed Dudley, Bobby Cruikshank, Al Espinosa and Roland Hancock.

Mr. de la Haye seemed to be spending a good part of his time in the bunkers and the few scores reported were high.

Jones, who already has scored a 69 and 70 in practice at Winged Foot, did not bid his last year's title. He was busy getting all the bad shots out of his system before the open starts on Thursday.

Dunlap Shoots
150 for 36 Holes
In College Golf

By the Associated Press.

DEAL, N. J., June 25.—Princeton's flashy sophomore golfer, George T. Dunlap Jr., of Pinehurst, N. C., made a bold bid for the N. C. title in the intercollegiate golf tournament here, adding a 78 to the 72 with which he showed the way to the big field in yesterday's 18 holes to total 150 for the 36 holes.

Yale and Princeton finished in a tie for the team championship, each turning in a two-day four-man total of 642.

Maurice McCarthy, of Georgetown, the defending champion, also turned in a 78 today but it left him two strokes back of Dunlap.

Scores for today and for 36 holes follow:

Fred McPherson, Detroit, 85-108. M. T. Cummings, Penn State, 80-108. J. C. Hunter, Washington, 88-107. M. Murray, U. of Penn, 92-80-172. Edward Lieberman, U. of Penn, 87-90-187. W. Four Local Net Aces to Compete At Indianapolis

Wray Brown, Missouri Valley champion; Charles Barnes, Karl Kammann and Junior Boehmer will represent St. Louis in the National clay court tennis championship at Indianapolis the week of July 1, it was announced last night.

Brown and Harris Coggeshall of Des Moines, Missouri Valley doubles champions, will play in the doubles as will Kammann and Barnes, the second ranking Missouri Valley team. Boehmer is the district junior and men's singles titleholder.

Davison O'Beare, secretary of the Missouri Valley Tennis Association and a member of the United States Lawn Tennis Association executive committee, will accompany the players to Indianapolis.

MATCH PLAY BEGINS IN WEST PLAINS (MO.) GOLF TOURNAMENT

By the Associated Press.

WEST PLAINS, Mo., June 25.—Tom Talbot of the Springfield, Mo., Country Club, with a 37-41-78, led the qualifiers by five strokes in the second annual amateur golf tournament of the West Plains Country Club for Southern Missouri and Northern Arkansas golfers here yesterday. A field of 40 players entered with 22 qualifying for today's play.

Talbot, who finished second in the All-Okla. tourney at Springfield, was the only player to equal par for the nine-hole course, which he did on the out nine, only to be four over coming back. John McGinty, 17-year-old Neosho, Mo. golfer, finished second to Talbot with 42-41-83. Back of McGinty came C. E. Martin, West Plains, 45-59-84; Lloyd Thompson, West Plains, 42-41-84; Tommie Woodruff, Hickory Hills, Springfield, 45-41-85; Fred J. H. Martin, West Plains, 40-46-86 and Clark S. Galoway, West Plains, 44-42-88.

Fairground and O'Fallon Win in Interpark Tennis

Ways and means of stopping the men and women's teams of O'Fallon and Fairground Parks probably would form the principal topic of discussion if the remainder of the squads in the Municipal Interpark Tennis Association could get together in a session "for the good of the order."

In the most recent matches, O'Fallon and Fairground teams again came through without losing a game in both the men's and women's divisions. O'Fallon took Sublette into camp, while Fairground defeated Kingshighway in a scheduled match and then trimmed Carondelet in a postponed affair.

Results of Interpark matches:

ALEXANDER TO RETURN TO SCENE OF FIRST PRO BASEBALL TRIUMPHS
By the Associated Press.

GALESBURG, Ill., June 25.—Grover Cleveland Alexander will return tomorrow to the scene of his first professional baseball experience with the St. Louis Cardinals against the Galesburg club of the Central League.

Galesburg fans will present Alexander with a number of gifts and he is to be the guest of honor at a banquet.

PANA'S RECORD CLEAN IN LEAGUE STANDINGS

PANA, Ill., June 25.—In the Central Illinois Hard Roads League, Pana won a double-header from Shelbyville, 5-1 and 3-2, maintaining their clean slate.

The score by innings, first game: Shelbyville—R. H. E. 0 0 0 0 0 0 1-1 1 2. Pana 1 0 0 2 0 0 0 2-5 10 2.

Second game: Shelbyville—R. H. E. 1 0 0 0 1 0-2 5 0. Pana 0 0 0 0 1 0 2-6 3 3.

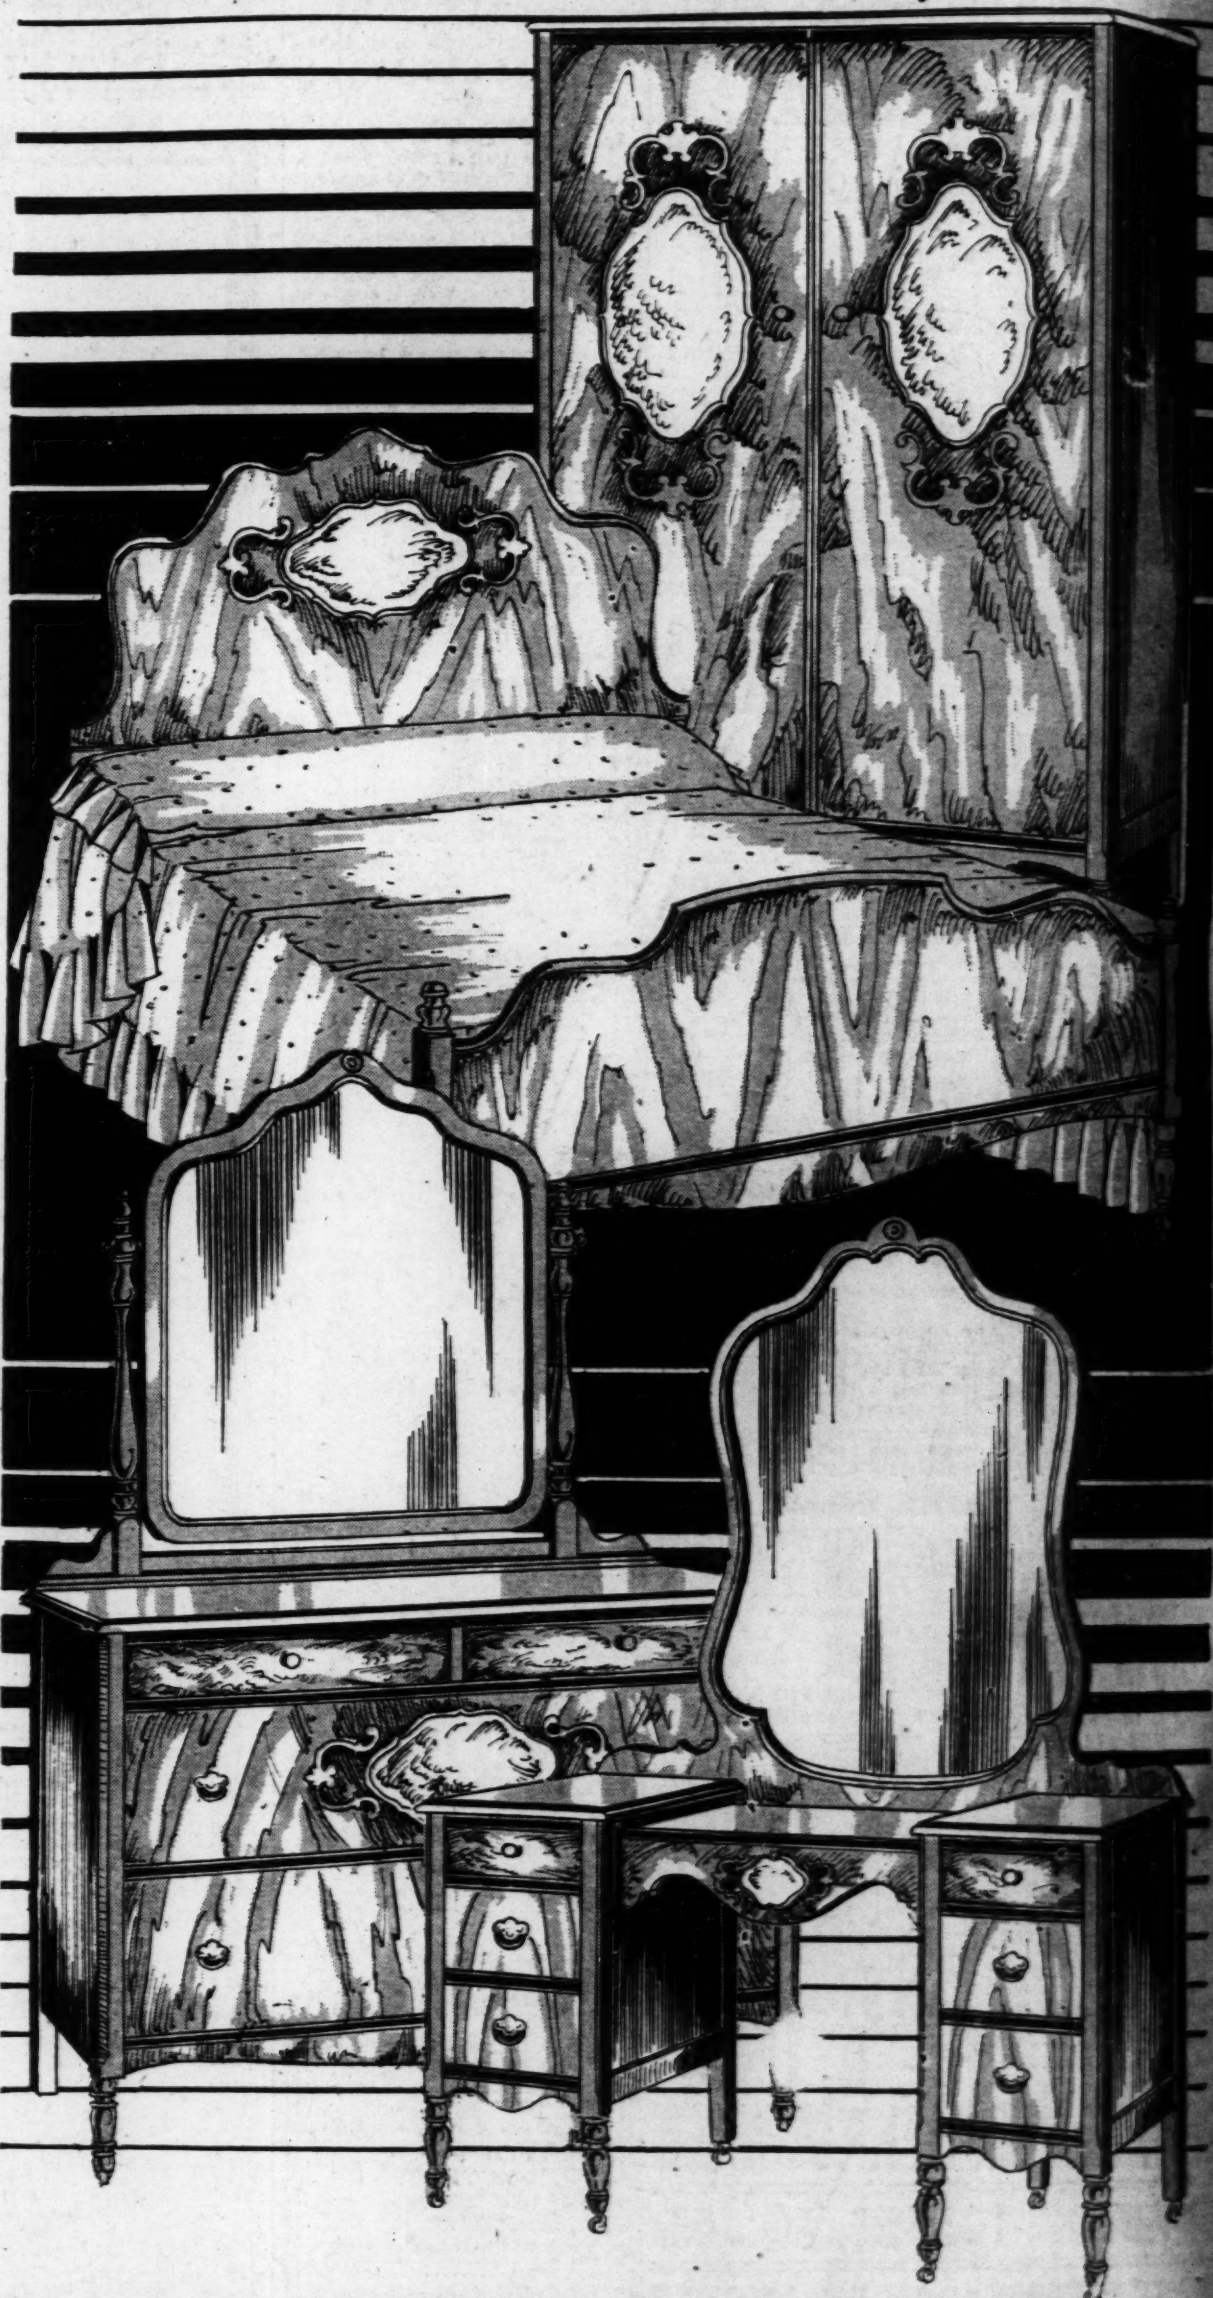

Batteries—Pana, Hawker, Everett and Wolff; Shelbyville, Deits and Hoeyer.

RAIN HALTS STARS' GAME WITH DETROIT

Rain and a wet field caused the postponement of the double-header scheduled for yesterday afternoon between the St. Louis Stars and the Detroit Stars at the Stars' Park. Weather permitting, the twin bill will be arranged for this afternoon first game starting at 1:30 o'clock. Manager Jim Taylor will probably use McDonald, or Trent as the starting pitcher in the first contest. Ladies admitted free.

The Motor City team defeated the locals in Sunday's contest to even the series at one game each. The Kansas City Monarchs now lead the Negro National baseball league by the margin of a single game.

PREPARING PLAN FOR WORLD-WIDE DISARMAMENT

League Officials Arranging Campaign to Submit Proposal to Meeting in September.

BRITISH GOVERNMENT WILL BACK PROGRAM

MacDonald to Attend Session at Geneva and Press for Adoption of Labor's Four Objectives.

By ALBIN E. JOHNSON, Special Correspondent of the Post-Dispatch and New York World.

GENEVA, June 25.—Preparations are being made here for the opening of a campaign for world-wide disarmament when the Assembly of the League of Nations meets at Geneva in September. Officials are preparing for a peace campaign which Great Britain's new Government is expected to support.

The League has been informed that the Laborites will be represented at Geneva by Prime Minister MacDonald, Foreign Secretary Henderson, and probably Lord Curzon and Viscount Cecil. It is not expected that the British Laborites during their tenure of office in 1924 and by the Conservatives because of Laborite origin, will be represented when MacDonald's Government is formed.

The Laborites, instead, are said to have the following four objectives:—

—Signing the optional clause of the World Court.

—Acceptance of the general act of the League Assembly.

—Speeding up completion of financial assistance plan under which members of the League would be guaranteed financial aid and unlimited aid in defending themselves against aggression.

—Support of the German program for definite delimitation of measures to be taken by the League for enforcing the covenant dealing with threats of war.

It is believed that the Laborites believe all the vital features of the old Geneva protocol put forward by Edouard Beaulieu, foreign minister and premier of Czechoslovakia, are sufficiently covered by the general act and the optional clause of the arbitration and conciliation treaties, and that the League features can well be left until moral security is achieved by natural evolutionary means.

Backed by Neutrals.

By the neutral bloc and smaller countries which are advocates of disarmament, the League will seek to accelerate approval of all measures designed to disarmament a reality.

Summary, which announced at least preparatory disarmament commission that it was with the League's preliminary meetings until other countries showed an inclination to accept something definite was considered her "hands off" policy in view of Labor's victory in London, according to high German officials. Should the Rhineland be demilitarized before September, Germany will not support solidly the MacDonald program.

Likely to Confer With Hoover on Disarmament.

WASHINGTON, June 25.—Reception of the preparatory disarmament commission's consideration of the naval reduction problem at Geneva next fall probably will be preceded by conference between President Hoover and Hugh S. Gibson, Ambassador at Large, and head of the American delegation taking part in that session.

Hoover is now in London to give Ambassador Dawes first-hand knowledge of the situation for the League of Nations. Whether, in the event of a conference with President Hoover, the latter will be called to Washington to perform a similar service for the League and his advisers, though no definite plans for a trip have been made, it is believed that, as contemplated, the Ambassador's visit might include a conference with Hoover.

Plan for Improving Spring Avenue as a Traffic Artery

THE heavy black lines show the section of Spring avenue, between Fairground and Tower Grove parks, which it is proposed to improve as a traffic artery, including opening of a two-block section, construction of three cutoffs and erection of a viaduct over the Mill Creek Valley railroad tracks. A cutoff to connect thirty-ninth street with the viaduct, as shown, is proposed also.

INQUEST INTO DEATH OF
SIR MORTIMER SINGER

Doctor Thinks Cause Not
Natural—Stomach Is to
Be Analyzed.

LONDON, June 25.—An inquest into the death of Sir Mortimer Singer, a native of Yonkers, N. Y., and a member of the Singer Sewing Machine family, was adjourned today until July 13 after preliminary testimony, to enable an analysis to be made of the contents of his stomach.

Dr. Robert Bakewell, who had attended Sir Mortimer, said that he could not state the cause of death definitely although it might have been due to coma, but that he did not think it was due to natural causes.

Sir Mortimer died in a nursing home where he had been undergoing treatment for intestinal disorders and sleeplessness.

During today's inquest a letter left by him was read saying among other things: "I am still wide awake notwithstanding all the drugs I have taken. I cannot stand it any longer."

Sir Mortimer was the eldest son of Isaac Mortimer Singer, inventor of the Singer sewing machine. He was born in Yonkers 66 years ago and became a naturalized British subject in 1900. He was widely known as a sportsman and for his philanthropic work.

NO PLACE FOR WOMEN
IN LUTHERAN PULPITS

Biblical Grounds Quoted by Prof.
J. T. Mueller of Concordia
Seminary.

RIVER FOREST, Ill., June 25.—The ministry of the Lutheran Church is a closed field to women regardless of the modern tendency of some other Protestant churches to permit women to occupy the pulpit, declared Prof. J. H. Mueller of Concordia Seminary, St. Louis, attending the triennial convention of the Evangelical Lutheran Missouri Synod.

"The Lutheran Church is positive in its stand that women shall not have an active voice in church leadership," he said. "It is not through any prejudice against women or their ability, but simply that nowhere in the Bible can one find reference to a woman leading a church."

"We base our practices on the Bible, and the Bible expressly sets forth: 'Let the women keep silence in the church.' Further, when Jesus established the first church He did not appoint any women to preach the gospel."

However, women occupy positions of much influence in the church, for they can serve as deaconesses, and great praise must be given their work as missionaries, Prof. Mueller said.

The convention yesterday appropriated \$1,039,258.51. Of this amount, \$256,000 annually for the next three years is to be given to home mission activities. The remainder was appropriated to colleges, including \$105,000 to Concordia College, Conover, N. C., for a new building.

SANDINO ARRIVES IN MEXICO
Former Insurgent Leader in Nicaragua May Reside in Yucatan.
(Copyright, 1929, by the Press and Publisher Publishing Co., Inc., New York World and the Post-Dispatch.)

MEXICO CITY, June 25.—Cesar Augusto Sandino, former insurgent leader in Nicaragua, crossed from Guatemala into Mexico yesterday. He was accompanied by five members of his staff.

Sandino was uncommunicative. He would only say that he is staying a few days at Suchitlan, Chiapas, and then will proceed by railroad over the Isthmus of Chontalepe to the port of Vera Cruz. Thence he will sail for Merida in Yucatan, where he expects to make his home. Only routine official cognizance has been taken of his arrival and presence in Mexico.

Peruvians on Last Leg of Flight.
GUAYAQUIL, June 25.—The Peruvian aviators, Pinillos and Zegarra, left Ecuador at 7:10 a. m. today for Lima, Peru, on the last leg of their New York-to-Lima flight.

CONFERENCE IN JULY
ON REPARATION PLAN

Putting Young Plan Into Operation
to Be Discussed Probably
in Switzerland.

By the Associated Press.

PARIS, June 25.—A conference of the Powers interested in the reparations settlement probably will open about July 5, it was said in official French circles today.

Switzerland, it is supposed, would be chosen as the neutral ground for the negotiations during which substitution of the Young plan for the Dawes settlement and evacuation of the Rhineland will be considered.

On the agenda also will be probably the question of disposal of the Saar coal basin and of the Reich mandate for some German colonies. It was understood here these questions would come up despite official German statements to the contrary.

Neither the Saar basin nor the German colony question was mentioned in the agreement at Geneva from which the conference of experts on reparations proceeded.

Dr. Gustav Stresemann's remarks to the Reichstag yesterday concerning the temporary character of the Young plan was interpreted in official circles as having been made for purely interior consumption. There was no apprehension of difficulty in reaching an agreement for the application of the experts' recommendations.

As for Germany's mandates it was pointed out there were none vacant according to the terms of the Treaty of Versailles and nobody thus far was showing any desire to make them vacant and until they did there seemed no way to satisfy Germany's desire to recover its old colonies.

German Foreign Office Approves Powers' Reparations Conference.
By the Associated Press.
BERLIN, June 25.—The German Foreign Office today declared authoritatively that the Government would offer no objections to a conference of the Powers interested in the reparations settlement by the Young plan. The Foreign Office would have no objections to London as a meeting place.

Formal acceptance of the proposal, however, must be made by the cabinet, which will also name the German delegation and consider a suitable date.

VON HINDENBURG TO ISSUE PEACE TREATY MANIFESTO
Will Refer to Anniversary "As Sad Memorial for People," It Is Reported.

BERLIN, June 25.—President von Hindenburg in collaboration with his cabinet, has drawn up a manifesto which he will publish June 28, the tenth anniversary of the signing of the treaty of Versailles.

Reference to the manifesto was made by Dr. Gustav Stresemann, Foreign Minister, in the course of a Reichstag debate yesterday. It is understood to call attention to the day "as a sad memorial to the German people." In addition it probably will deny Germany's sole responsibility for the World War.

FREED OF POISON CHARGE
Mexican Woman Released; Allegations Found to Be Baseless.

MEXICO CITY, June 25.—Mrs. Soledad Morales de Learn, Mexican wife of an American wild animal hunter, has been released from prison and freed of charges in connection with alleged attempts to poison William A. King, her husband's business rival.

Mrs. de Learn was arrested Sunday no evidence purporting to show she had hired a woman to poison him. It was said the charges against her were unfounded.

Named to U. S. Prisons Post.
WASHINGTON, June 25.—The Department of Justice announced today that Austin H. McCormick, New York City, had been appointed as an assistant to Stanford Bates, Superintendent of Federal Prisons, McCormick's duties have not been definitely determined.

SUBMITS TRAFFIC ARTERY
PLAN FOR SPRING AVENUE

Brooks Proposes Roadway Be Widened to 45
Feet Between Natural Bridge and Chouteau—Three Cutoffs Advised.

A detailed plan for the development at the smallest expense possible of Spring avenue, between Fairground and Tower Grove parks, as a traffic artery, was submitted today by the Board of Public Service, at Fairground Park, and Chouteau and Vandeventer avenues, was submitted to the Board of Public Service today by Director of Streets and Sewers Brooks. The board approved in principle.

Spring avenue at present is a 60-foot street between property lines, with a 36-foot roadway and 12-foot sidewalks. Brooks proposed that a 45-foot roadway be provided between Natural Bridge avenue, at Fairground Park, and Chouteau avenue, by reducing the sidewalks to seven and a half feet each. He recommended construction of a viaduct to replace the grade crossing of the railroad tracks in Mill Creek valley, which lies north of Chouteau avenue. The viaduct would have a 56-foot roadway and sidewalks widths of at least 10 feet.

Other Details of Project.
Other phases of the project as recommended by Brooks are: Opening of Spring avenue, with 80-foot width and 66-foot roadway, for two blocks between Finney and Bell avenues.

Construction of an 80-foot cutoff, with 55-foot roadway, in the block between Page boulevard and Cook avenue.

Provision of a similar cutoff in the block between Olive street and Westminster place.

Installation of a similar cutoff from Spring avenue and Gratiot street to Thirty-ninth street and Chouteau avenue, extending about two blocks.

Utilization, by means of the last mentioned cutoff, of Thirty-ninth street as well as Spring avenue as a traffic artery between Magnolia avenue, at Tower Grove Park, and the new viaduct.

Spring avenue and Thirty-ninth street, which are parallel and a block apart, should remain 60-foot thoroughfares, with 36-foot roadways, between Magnolia and Chouteau avenues, Brooks said. In the proposed section of 45-foot roadway between Natural Bridge and Chouteau avenues it would be possible to have two lines of parked automobiles and three lanes of moving traffic with two of these lanes going in the direction of heaviest travel whichever way that might be Brooks pointed out.

"A Tortuous Route"
Even after carrying out the proposed improvements Brooks declared "there are so many offsets in the street that it will be a tortuous route."

An ordinance for the cutoff between Olive street and Westminster place was approved by the Board of Public Service, to be forwarded to the Board of Aldermen for passage. Ordinances for other units will follow, Brooks said.

Heretofore Brooks had suggested opening a public street to carry Spring avenue across Tower Grove Park but the Southern Railway, which owns the park, has declined to do so. The proposed cutoff on the South Side, Brooks reported today that it was impracticable to consider improvement of Spring avenue south of Tower Grove Park until the Southern Railway Relict Sewer is built as the sewer construction will affect the street. For this reason Brooks said no attempt should be made to build the thoroughfare across the park at this time.

As to a former proposal to widen Spring avenue to 80 feet all the way between Tower Grove and Fairground parks Brooks asserted that this would not "provide a thoroughfare commensurate with the cost."

FISHERMEN PRESENT NEW MUSCLE SHOALS PROBLEM
Protest Against Lowering Level of Lake Wilson in Fight on Mosquitoes.

FLORENCE, Ala., June 25.—The Hoover administration has a new Muscle Shoals problem. It pertains to the raising and lowering of the level of Lake Wilson through Wilson dam to control mosquitoes.

A protest has gone to Washington, charging that lowering the lake level not only destroys mosquito larvae but fish spawn as well, thereby ruining a lot of good fishing.

Several car loads of fingerlings have been placed in the lake by the State Bureau of Fisheries, and the Florence Exchange Club fears all will go over the dam with the mosquitoes. It is the sportsmen's contention that the mosquitoes can be dealt with in other ways than by lowering the lake level.

WILBUR TO MEET GOVERNORS
Secretary to Discuss Reclamation With 13 Executives.

FESCO, Cal., June 25.—Secretary of the Interior Wilbur has accepted an invitation from the Governors of 13 Western states to meet with them on July 3, to discuss reclamation and local subjects.

The invitation from the Governors was received shortly after Wilbur had outlined what he termed a "new policy for the Government in its relationship to reclamation." This policy was that the Government should build necessary reclamation projects, protect its investment where possible, and D'Annunzio Undergoes Operation.

GARDONE, Italian Riviera, June 25.—Gabriele D'Annunzio was operated on yesterday for appendicitis. The distinguished poet-novelist took a local anesthetic and stood the shock of the operation well. He is now in his sixty-sixth year.

Attorney-General So Advises Nye, Who Accepts
Report as Ending Senate
Committee's Inquiry.

By the Associated Press.

WASHINGTON, June 25.—Attorney-General Mitchell advised Chairman Nye of the Senate Lands Committee yesterday that the investigation by the Department of Justice of the Salt Creek (Wyo.) oil leases had disclosed "no legal basis" for the institution of suits attacking the contracts made by the Interior Department on this oil reserve.

The letter was accepted by Senator Nye as terminating the inquiry into the Salt Creek leases undertaken by the Lands Committee last winter, and he said that unless new evidence was discovered a report of the Attorney-General in line with the Attorney-General's findings probably would be made soon after Congress reconvened.

Nye declared, however, that he personally would not agree to any report unless it "secured the Democratic Payne-Talman administration of the General Land Office for carelessness when the Salt Creek leases were originally entered into."

MRS. DAWES TO PRESENT 16 AMERICAN WOMEN AT COURT
Wife of New U. S. Ambassador to Act in Official Capacity Wednesday and Thursday.

LONDON, June 25.—Mrs. Charles G. Dawes will play her first official role as the mistress of the American Embassy here on Wednesday and Thursday nights when she will present 16 American women to the Royal Court at Buckingham Palace.

She will first be presented herself to Queen Mary by Senator Merry Del Val, wife of the Spanish Ambassador, who is doted of the London diplomatic corps. Then the wife of the new United States Ambassador will present her countrywomen.

On Wednesday the debutantes will appear at the Palace as the Misses Frances M. Barclay of New York, Rosemary Bauer of Chicago, Dorothy Chase of Waterbury, Conn., Natalie Coe of New York, Pauline Fenno of Boston, and Lillian Sanger of New York and Mrs. Edward F. Hutton of New York and Mrs. Aymar Johnson of New York.

On Thursday those who will make their bow are the Misses Annie E. Nourse of Boston, Mary E. Riddle of Tennessee and Elizabeth Stuart of Cambridge, Mass., and Mrs. Ernest Dorbritz of Philadelphia, Mrs. Walter Mangum of South Carolina, Mrs. Francis Neilson of Chicago, Mrs. John B. Seymour of Georgia and Mrs. Andrew Wheeler of Philadelphia.

Also on Thursday Mrs. Dawes will present in diplomatic circles Miss Hughberta Thomas, daughter of Col. John R. Thomas, military attaché of the American Embassy; Mrs. John H. Dayton, wife of the Vice Admiral commanding the forces in European waters, and Mrs. John O. Huse, wife of the Lieutenant-Commander, who is Assistant Naval Attaché.

Mrs. Dawes will wear a white and silver gown with a long silver train to one court and a black and white gown also with a silver train to the other.

PARIS CAMPAIGN
ON DOCTORS WHO
WOUND PATIENTS

Practice of Collecting Damages
Exposed; One Physician,
Five Aids Sentenced.

By the Associated Press.

PARIS, June 25.—Marking the close of a campaign by Paris police on doctors who "wounded" their own patients to enable the patients to collect damages, one Paris doctor has been sentenced to two years in prison, a fine, and ordered not to practice medicine for 10 years.

Five assistants of this doctor, whose name is Gaston Prieur, have begun sentences of from four to 10 months in prison in addition to fines. These include a pharmacist and a nurse.

A number of other doctors are facing trial.

These doctors for a time did a flourishing business. When a man was injured in an accident, or a working man hurt in a factory, one of these doctors would keep him in bed for a month or more, and collect his pay for months in addition to compensation. Insurance companies also were victims.

The business was interrupted when a detective one day invaded a doctor's office, arrested him, and installed himself as doctor. Then he "consulted" and arrested 27 patients in one day.

POWER CONCERN'S REVENUE

Increase From \$85,700,000 IN 1902, Annual Survey for U. S. Shows.

NEW YORK, June 25.—Bonbright & Co.'s annual survey of public utilities points out that the gross revenue of all electric light and power companies in the United States has increased from \$85,700,000 in 1902 to \$1,908,900,000 in 1928.

The report states that only 10 per cent of the nation's farms are served by lighting companies, only two-thirds of the country's inhabitants live in wired houses, less than 2 per cent of the railroads are electrified, and the lighting of highways and airways has hardly started.

Three million investors' holdings in utilities exceed \$25,000,000,000, exclusive of stocks in railroads.

The survey predicts continued expansion of the nation's light and power requirements which will necessitate \$3,600,000,000 in new financing during the next five years.

Ministry Immediately Considers Empire Affairs on
Convening of New British
Parliament.

CONSERVATIVE AGAIN
ELECTED SPEAKER

Newest Appointments to Official Family Include Former
Taxi Driver, Policeman, Ship Carpenter.

By the Associated Press.

LONDON, June 25.—Important negotiations by the new Labor Government on Empire affairs, including the question of resumption of diplomatic relations with Soviet Russia, were announced today to be in progress on Labor's first day of Parliamentary life.

The Government has communicated with all the dominions in an effort to gain agreement on signing of the optional clause of the World Court statutes, under which questions of international law would be submitted to the permanent court of international justice at The Hague.

The Laborite Daily Herald today said that the Labor Government had informed the dominion governments that it proposed to resume diplomatic relations with Russia.

The World Court matter requires agreement of all the dominions and it is expected this can be obtained without much trouble. Australia hitherto was thought to be the only dominion reluctant to sign the optional clause, and it is understood this reluctance has now been removed to a great extent. In any event, Premier MacDonald is hopeful of being able to show complete Empire agreement on the World Court when he visits the League of Nations assembly at Geneva in September.

Pledge on Soviet Negotiations
So far as Russia is concerned, the Labor Government is already pledged to renewal of diplomatic negotiations. This is regarded by the Laborites as a necessary and important step towards the desired increase in British trade with the Soviet Union.

The new Parliament held its first session today under the Labor Government and re-elected Capt. E. A. Fitzroy, Conservative, as Speaker.

No vote was cast against the popular presiding officer who was praised in the nominating speeches for his impartiality. A round of cheers greeted the result of the vote to which the speaker responded by thanking the House for conferring upon him "the greatest honor it is able to confer upon one of its members."

The House adjourned shortly afterwards and will get down to work next week with the reading of the speech from the throne.

After the Black Rod had made his traditional entry into the House and summoned the Commons to the upper chamber to hear the reading of the Royal Commission inaugurating the new Parliament, Premier MacDonald and former Premier Baldwin rose, met on the floor and shook hands heartily amid cheers.

The Ministers, former Ministers and members of the House then trooped along in the wake of the Black Rod and the clerk of the Commons to the House of Lords. Only three women members were present at the outset. Lady Astor, Miss Lee and Miss Megyn Lloyd George.

pool Edgell, was named vice chairman of the Royal Household, and Tom Henderson, member for a Glasgow division, Comptroller of the Royal Household.

The only appointments outstanding are those of Lord Chamberlain, Lord Steward, and the Master of the King's Horse, and since 1924 these have assumed a non-political character.

The holders of the appointments announced today have been ap-

proved by the King. Smith, incoming Treasurer of the Household, has been closely associated with the Transport Workers' Union.

The new vice chamberlain, Hayes, was formerly a Sergeant in the metropolitan police. One of his new duties will be to act as bearer of messages from the King to the House of Commons.

Henderson, formerly a ship's carpenter on the Clyde, for some time has been on the managing board of the Glasgow Co-operative Society, and for four years has been one of the Labor party whips.

U. S. REPARATION DELEGATES SUBMIT REPORT TO HOOVER

Young, Morgan, Lamont and Perkins Are Lunchon Guests at White House.

WASHINGTON, June 25.—President Hoover received today a personal report on the reparations conference in Europe from the four United States delegates, Owen D. Young, J. Pierpont Morgan, Thomas W. Lamont and Nelson Perkins. The four were guests of the President at luncheon at the White House. With them were Secretary of State Stimson and Undersecretary of State Cotton and Secretary Mellon and Undersecretary Mills of the Treasury. Young and his associates also called at the State Department.

Relief FROM FINANCIAL WORRY

THOUSANDS of families are worrying over accumulated bills, or the expense of necessary medical attention. Sometimes, because of pressing obligations, they cannot buy the things they really need. The Household Small Loan Company is in business to help in such emergencies. Our plan has brought relief from financial worry to tens of thousands of families. It will help you.

HERE'S THE PLAN

We will advance you the money you need—from \$50 to \$300—on terms to fit your income and you may take twenty months to repay, if you wish. Loans are made to families and no outside signers are required. Our new rate, which is nearly one-third lower, offers substantial savings to our customers.

HIGHER RATES ON WOOL SOUGHT AT TARIFF HEARING

Head of National Growers' Association Asks Senate Committee to Put Rate on Raw Product at 36 Cents.

WASHINGTON, June 25.—Radical changes in the House tariff bill, including provisions for termination of the reciprocal trade treaty with Cuba, higher rates on wool, and levying of duties on agricultural imports from the Philippines, were recommended at hearings on the measure before three Senate finance sub-committees yesterday.

Chester H. Gray, legislative representative of the American Farm Bureau Federation, suggested abrogation of the Cuban-American treaty under which each country grants the other preferential tariff rates on a long list of commodities. Gray said farm products coming into the United States from the Philippines, including sugar, should be dutiable. The House rejected the proposal for tariffs on imports into the United States from its possessions.

Questioned by Senators Smoot, (Rep.) Utah, and Harrison, (Dem.) Mississippi, Gray said his organization was neither for nor against the debate plan sponsored by the national range as a part of the tariff bill.

For Change—Wool Rates. Frank J. Hagenbarth, of Spencer, Idaho, president of the National Wool Growers' Association, sought a 25-cent pound duty on raw wool as compared with 24 cents in the bill and the present rate of 21 cents and substantially higher on all kinds of wool waste.

The witness declared 25,000,000 pounds of wool waste entered the United States last year at about half the duty on virgin wool and that this displaced approximately one-third the American production of raw wool. The principal reason domestic growers failed to receive the full benefit of the present 21 cents tariff, he said, was because of the wide differential between the raw and waste wool duties.

Hagenbarth's proposals regarding wool waste were supported by N. B. Brooks of Boston, on behalf of the Pure Wool Manufacturers of New England and Pennsylvania, and by J. Byron Wilson, McKinley, Wyo., representing the Wyoming Wool Growers' Association.

Although the growers would be satisfied with a 36-cent duty on virgin wool, Hagenbarth said they were entitled to 40 cents as protection based on actual differences in cost of production here and in Australia and South America.

Gray indorsed a proposal by the wool growers to eliminate the new House provision permitting imported carpet wools to contain up to 10 per cent of what is known as clothing wool.

Coarse wools going into carpets and rugs are entered under bond and if within three years it is shown that the wool actually was used for such manufacture the bond is relieved. Gray said the 10 per cent provision would be difficult to administer.

Effect of Rayon. Testifying for the Ohio Wool Growers' Association, J. F. Walker of Gambier, O., attributed decreased imports of raw wool to increased use of rayon and other wool substitutes.

P. J. Gorman, representing the United Textile Workers, testified that less than 50 per cent of woolen textile workers were gainfully employed.

Representative Celler, (Dem.), New York, protested against the proposed 7 cents a pound supplemental duty on wool rags when carbonized.

Opposition to the sliding scale sugar tariff as a substitute for higher rate of 240 cents a pound on Cuban sugar provided in the House bill was expressed in a statement issued today by Royal D. Mead, vice president of the Hawaiian Sugar Planters' Association.

The plan, under which rates would decrease as the price of sugar advanced and vice versa, was described by Mead as a "scheme" that would guarantee \$25,000,000 annual profits to refiners. In other words he added, the sliding scale plan would assure eastern cane refiners their cost of converting raw sugar into refined and their profits.

Photo Glass Rates Opposed. A. G. Cramer and C. W. Hammer, photographic dry plate manufacturers of St. Louis, opposed tariff rates for their products as carried in the House bill in testimony before the Glassware Subcommittee.

Cramer said he had been unable to obtain domestic glass of "satisfactory quality" and when American glass had been used, rejects were five or six times greater than they were on foreign glass.

The tariff increase, he added, would be impossible because of direct competition with manufacturers of celluloid films. Cramer suggested that photo glass be segregated with specific duties and not be subject to the minimum ad valorem rate of 20 per cent.

Report Shows 5 Per Cent of Those Who Commit Major Crimes Are Sent to Prison.

CHICAGO, Ill., June 25.—Figures released by Arthur Lashly, director of the survey of the Illinois Association of Justice, purport to show that only 5 per cent of those committing major crimes in this city are sent to prison, thus giving the criminal odds of 19 to 1 against punishment.

Another 5 per cent are freed by juries, Lashly's figures show, while 90 per cent are released through action of the State's Attorney.

\$90,000 ALIENATION
JUDGMENT SET ASIDE

Appellate Court Orders New
Trial for Frank J. Klapp,
East Side Merchant.

A \$90,000 judgment awarded Michael Lindenberg, East St. Louis
salesman, against Frank J. Klapp,
East St. Louis and Belleville shoe
merchant, in a suit for alienation
of affections of Mrs. Lindenberg,
has been set aside and the case re-
manded for retrial by the Southern
Illinois Appellate Court at Mount
Vernon.

Lindenberg and Klapp married
sisters. Following the death of
Klapp's wife, the Lindenegbers
made their home with him. Later
Lindenberg sued his brother-in-
law for \$100,000. The trial was held
before Circuit Judge Bernreuter at
Belleville last November. At a
subsequent hearing on a motion for
retrial, Judge Bernreuter reduced
the award to \$45,000.

In granting a new trial, the Ap-
pellate Court holds that the trial
judge erred in ruling out testimony
concerning Klapp's efforts to recon-
ciliate Lindenberg and his wife,
and had erred again in reducing
the jury's judgment.

At the trial Lindenberg testi-
fied his wife and Klapp had at-
tended social functions together
and once she accompanied him on
a six weeks' business trip in the
East. He said Klapp ordered him
from the house one night when he
returned home intoxicated after
brooding over the loss of his wife's
affections. He estimated Klapp's
wealth at \$400,000.

Klapp testified that his wife on
her deathbed in 1925 asked her
sister, Mrs. Lindenberg, to care
for her children, and the latter had
tried to be a mother to them. He
denied any improper conduct.
Klapp estimated his wealth at
about \$90,000.

FOUR KILLED, FOUR HURT
IN TRAIN-TRUCK CRASH

Three Children Spending Vacation
on Massachusetts Farm, and
Driver Are Victims.

By the Associated Press.

SHEPHERD, Mass., June 25.—
Three children and a man were
killed and four other persons in-
jured here yesterday when a train
struck a truck at a grade crossing.
The children were all residents of
New York and were vacationing at
a farm here, having been sent by
a Jewish charity organization.

The dead were Ruth Kline, 13
years old, her sister, Sylvia, 11,
Sadie Saigo, 17, and Hyman He-
lamed, 34, driver of the truck.

Mrs. Ida Finkelstein, 28, of
Brooklyn, N. Y., was taken to the
Fairview Hospital. Great Barrington,
where no hope was held for
her recovery. Others injured were
Mrs. Finkelstein's son, Hyman, 4;
Julius Lansbourg, 7; the latter's
brother, Nathan, 5, and Jack Kline.

DISBURSEMENTS
OF \$6,027,362
DURING JUL

Represent Dividends and
Interest on Securities
Listed on the St. Louis
Exchange

St. Louisans and other holders of securities listed on the St. Louis Exchange will receive about

Dividend disbursements will make up the larger part of the total distribution, being estimated at about \$3,126,212. Interest payments are figured at \$961,156. Wall Street estimates that nearly three quarters of a billion dollars will be paid out in dividends and interest during the month of July. The above sum represents the mid-year disbursements, in some instances being semiannual payments and in other cases, quarterly or monthly distributions.

Some of the larger distributions among the locally listed securities will be:

International Shoe	\$2,350,000
--------------------	-------------

Southwestern Bell, \$274,000.
St. Louis Public Service, \$128,000.
Laclede Steel, \$103,000.
St. Louis Union Trust, \$200,000.
First National Bank, \$110,000.
Mississippi Valley Trust, \$120,000.
St. Louis Union Trust, \$200,000.
Mercantile-Commerce, \$109,000.
Boyd-Welsh Shoe, \$20,000.
Consolidated Lead, \$62,500.
Ely-Walker, \$202,500.
McQuay-Norris, \$50,000.
Y-loney Electric, \$40,000.
National Candy, \$120,000.
Rice, \$134,000.

Interest payments will be large distributions on traction issues. Payments on the United Railroad 4s will amount to \$726,000, while that on the City and Suburban 5s will be \$112,500.

In some instances the above mentioned payments will be preferred issues only.

CURB CLOSES UNDER BEST PRICES OF DAY

By the Associated Press. NEW YORK, June 25.—Curb market prices were bolstered after a weak opening. Traders disregarded 10 per cent call money, believing the pinch was only temporary, with lower rates after the midyear settlement period is passed. Some selling was encountered in the late afternoon, and stocks closed somewhat under the best prices of the day.

Y S BAPTIST MEETING TRIED TO EMBARRASS DES MOINES U.

President of Board Declares That
Was Reason for Forcibly Closing
\$200,000 Mortgage.

By The Associated Press.
TORONTO, June 25.—A charge
members of the Iowa Baptist
convention had attempted to em-
boss the board of trustees of
Moines University by foreclos-
ing a \$200,000 mortgage, was made
Rev. T. R. Shields, president of

the board on his return from Des
Moines. Business people in Des
Moines were supporting the school
in its efforts to reorganize, he de-
clared.

Commenting on the recent con-
troversy, Dr. Shields said the sal-
ary of every professor who did not
enter suit had been paid in full,
but that the faction which sought
to settle its difficulties in the
courts would have to be content
with public sympathy.

By The Associated Press.
DES MOINES, Ia., June 25.—De-

nial of a charge made by Dr. T.
T. Shields of Toronto, president of
the board of trustees of Des
Moines University, that the Iowa
Baptist convention attempted to
embarrass the board by foreclosing
a \$200,000 mortgage, was made
yesterday by the Rev. Frank An-
derson, executive secretary of the
convention.

The Baptist Bible Union of North
America and the trustees of the
University owe the convention but
\$5000 and the convention never has
pressed for payment, the Rev. Mr.
Anderson said.

COOKING CLASS

By Nancy Dorris

ORDINARILY, a rich dessert does not follow as our menu of which was published here recently. Just a slice of rich, luscious maple mousse and cup of perfect coffee are needed to complete the dinner.

Mousse, as any experienced cook will agree, among the simplest of desserts. Whipped cream, sweetened and flavored and, barring a period when the mould, carefully wrapped in waxed paper, is melting in crushed ice and salt. There you are.

Serve tomorrow's mousse on a lace-daily spread silver or crystal platter, circled with a wreath of flowers and leaves to match your color scheme. You'll be that proud, darling!

Maple Mousse Detroit.

Four egg yolks
Cup hot maple syrup
One pint whipped cream
Four egg whites
Ice, coarse salt for freezing
Heavy waxed paper

OBTAIN in the household section of your favorite store a fancy mousse mould. If you have none at hand, the cover should fit closely. No ice and salt must mix with your mousse! The culinary kit is a slight one: sauceman, measuring cup, bowl for yolks, bowl for whipping cream, whip, bowl for beating eggs, large spoon, moistened mould, waxed paper, strip of cloth dipped in melted fat or a wide elastic band, pan to hold crushed ice and salt and the mould.

When the syrup is very hot, pour slowly over the beaten yolks, return to the syrup sauceman and cook two minutes over the gentle heat, stirring constantly. Let cool. Whip the cream, whip the egg whites. Fold the whipped cream into the syrup-yolks and then fold in the whipped egg whites. Turn into the fancy mould, or individual moulds if you prefer. Lay a sheet of waxed paper over the top, adjust the cover tightly. Put the elastic band around the neck of the opening or seal the edges with the cloth dipped in melted fat. Bury in a mixture of four parts crushed ice to one part of salt and let stand three to four hours.

When wanted, take the mould from the ice and salt, wipe carefully with a damp cloth, remove elastic or cloth protector, take off the cover and the waxed paper. If the mousse does not want to come out upon the platter, wrap for a second with a cloth wrung out of hot water. The unmoulding process then is easy. Serve at table.

Corn Rissoles

Add three ounces grated cheese to a can of crushed corn and heat until the cheese is melted. Cook Form into rissoles, dip in egg and breadcrumbs and fry in boiling fat. Quite a mysterious little enterprise.

Behind the Screens

Latest News and Gossip of the Film Actors in Hollywood from the Daily Magazine of the Post-Dispatch Every Tuesday and Thursday and in the Sunday Drama Section.

HOLLYWOOD, June 25. The weather has sent everyone to the beaches looking for the breeze which has drifted off the ocean after it has drifted off the beach.

Mousse, as any experienced cook will agree, among the simplest of desserts. Whipped cream, sweetened and flavored and, barring a period when the mould, carefully wrapped in waxed paper, is melting in crushed ice and salt. There you are.

Serve tomorrow's mousse on a lace-daily spread silver or crystal platter, circled with a wreath of flowers and leaves to match your color scheme. You'll be that proud, darling!

Maple Mousse Detroit.

Four egg yolks
Cup hot maple syrup
One pint whipped cream
Four egg whites
Ice, coarse salt for freezing
Heavy waxed paper

OBTAIN in the household section of your favorite store a fancy mousse mould. If you have none at hand, the cover should fit closely. No ice and salt must mix with your mousse! The culinary kit is a slight one: sauceman, measuring cup, bowl for yolks, bowl for whipping cream, whip, bowl for beating eggs, large spoon, moistened mould, waxed paper, strip of cloth dipped in melted fat or a wide elastic band, pan to hold crushed ice and salt and the mould.

When the syrup is very hot, pour slowly over the beaten yolks, return to the syrup sauceman and cook two minutes over the gentle heat, stirring constantly. Let cool. Whip the cream, whip the egg whites. Fold the whipped cream into the syrup-yolks and then fold in the whipped egg whites. Turn into the fancy mould, or individual moulds if you prefer. Lay a sheet of waxed paper over the top, adjust the cover tightly. Put the elastic band around the neck of the opening or seal the edges with the cloth dipped in melted fat. Bury in a mixture of four parts crushed ice to one part of salt and let stand three to four hours.

When wanted, take the mould from the ice and salt, wipe carefully with a damp cloth, remove elastic or cloth protector, take off the cover and the waxed paper. If the mousse does not want to come out upon the platter, wrap for a second with a cloth wrung out of hot water. The unmoulding process then is easy. Serve at table.

For the Love of a Lady A ROMANCE

by Jeffery Farnol

Moonlight—and a Fair Lady and a walk home on a warm, still night—In which Sir Richard learns that his Fair Captive is Lady Helen D'Arcy.

SYNOPSIS: In sparkling moonlight, a beautiful girl quietly slips into the Guyfford mansion—a burglar seeking a dangerous letter written to Richard Guyfford, dashing nobleman. Discovered by Sir Richard, and believing him to be his cousin, Julian, she begs his aid. Richard is amazed by her talk of letters he has not received, calls Julian's valet, Tom Pitt, and beats that scoundrel until he gives up the latest note. Handing it to the girl, he reveals his identity and asks that she tell him more of his own black character, to which she has scathingly referred. Against her will, he accompanies her toward the village.

Lady Helen and Sir Richard Guyfford.

CHAPTER II.

IT was a warm, still night, lit by the soft radiance of a rising moon and full of the languorous fragrance of honeysuckle, while from the shadowy woods stole the soft, bubbling notes of a nightingale.

Sir Richard, glancing at his companion, espied a glistering tendril of hair, a slim, proud-arched foot and a voluminous cloak.

"Aye me, ma'm," he exclaimed, sighing heavily, "tis night most apt to sighful dalliance, how say you?"

"That I would be alone, sir," "Nay, but consider you bright moon."

"Indeed, 'tis very bright," she answered. "Too bright for some folks—highwaymen, for instance!"

"Gad—so!" he exclaimed. "Highwaymen!" say you. Now I wonder why?"

They had reached the high road by now, stretching white before them.

"Here, sir," said she, "I will give you good-night!"

"Which I return, ma'm, with all my heart," he answered with careless bow. "Tis night to be enjoyed; let us go on."

"So you will afflict me with your presence, sir?"

"Gladly, ma'm—until I weary, or you reach your friends or carriage, or inn, or—"

"Sir, you grow but the more detestable."

"Perfectly, ma'm! And our nearest inn is the Guyfford Arms, two miles hence. Walking at four miles to the hour thus gives you half an hour to endure the in-

fiction of my company, and in half an hour you may tell me more of myself, my sins and frailties, than I am at present sensible of—mine ears attend you."

"So be it, sir, and now shall they tingle." She tossed back her hood with sudden angry gesture, showing him all the proud scornful beauty of her face.

"I know you, Sir Richard Guyfford, for one of infamous life, a menace to all purity and innocence."

"Egad!" he exclaimed, shaking his head, "and I know myself a very Cato, fleeing Woman like a plague! . . . Continue, I beg!"

"I know you for drunken satyr—a cold-hearted libertine—"

"Now, 'pon my soul, ma'm, you shock me."

"And oh, most vile—a black-maller of woman who—"

EVEN as she gasped at his fearful oath she was stayed and wrung by powerful hand to behold a face so transfigured that her courageous spirit quailed at last, and, bowing proud head, she covered her face against those awful, glaring eyes.

"You are, indeed, Sir Richard Guyfford," she inquired, in voice strangely hushed.

"Never doubt it, I am he, ma'm upon my honor."

And now as he went beside her, his sombre eyes staring down at white road or up at brilliant moon, she looked at him often and with ever-increasing unease.

"Come, proceed, lady, I beg!" And now his eyes were twinkling, his lips twisted in their sardonic smile; she met his eyes and—

Simple Science for Everyone

SEA SERPENTS

BEFORE Columbus set sail with his three little boats for America, he had been warned by the sailors of Genoa and Spain that the sea was inhabited by monsters such as could swallow his whole fleet, if they took a fancy to the mariners aboard.

The stories were very probably "fish stories." But had they been told six million years ago instead of something like 500 years ago, there might have been some truth to the tales. But of course there were no human beings on earth six million years ago to tell them, science says.

There were "serpents" then, however, according to the record the rocks have kept of their bones in North America and in South America, in Europe and in New Zealand. They looked like snakes and the stories Columbus heard were pretty wide of the mark, for the longest of them were not over 45 feet. But even this is a considerable length for a snake to attain.

Their bones show that their backs were jointed at over 100 places, like the backs of modern snakes, and that their jaws were made so that they could be dislocated for the convenience of taking extra large mouthfuls. Their teeth were the vicious trap-like kind of teeth that curve backward to prevent their victim's escape.

The modern relatives of these ancient monsters still live and rear their young in the sea. We call them sea-snakes.

WALL STREET
BROAD RISE MARKS DAY'S STOCK TRADE
New Highs for Year Established by Nearly Two Score Issues, Many Up From 3 to 12 Points.
CALL MONEY STEADY AT 10 PER CENT LEVEL.
High-Grade Railroad Shares, Utilities and Industrials Lead Movement—Late Profit-Taking.

NEW YORK, June 25.—Led by high grade rails, public utilities and industrials, stock prices forged ahead again today on a sharply advanced volume of trading. New records for the year were established by nearly two score issues, many of the gains running from 3 to 12 points. The rally started with the opening gong and continued, with no serious interruptions until towards the close, when profit-taking cut down some of the gains and sent a few issues down yesterday's final quotations. The railroad and public utility averages mounted to record high points and the industrial average was lifted to within five points of the peak established just prior to the May reaction. The day's sales aggregated 4,029,740 shares, as against a recent average turnover of around 2,000,000 shares.

Call money renewed unchanged at 10 per cent, with an apparently sufficient supply of funds attracted to keep the rate at that level all day. There was no change in the money or commercial paper rates. Wall Street is looking for another large increase in Federal reserve brokers' loans this week, not only to the revival of bullish activity in the stock market but to the expiration of stock purchase "rights."

U. S. Steel Takes Lead.
Steel common quickly assumed undisputed leadership of the market and maintained its position through the day. At top levels the stock was within a stone's throw of the record price reached prior to the May break. Directors announced after their regular monthly meeting yesterday that the company's 1928 shares of stock offered to stockholders at \$140 had been subscribed for. Thus the corporation will now proceed with redemption of its outstanding bonds, a part of which will probably be paid for payment as of Nov. 1.

Weekly Steel Trade Reviews reported some recession in steel output but pointed out that hot weather and physical limitations of equipment have affected mill operations more than market conditions. Purchase of Henry Ford, Detroit, Toledo & Ironton Railroad by the New York Investment Co. and the Pennsylvania Railroad for an undisclosed price, believed to be a subsidiary or affiliate of the Pennsylvania railroad, was announced after the close of the market.

Heavy buying of United Corporation, the recently organized P. Morgan Public Utility Holding Co., featured the late trading. The stock crossed 65, with the demand influenced by uncertainty of a 2 for 1 stock split up the "four" Railroad scored 12 points to a new high at 260. U. Steel common, North American, Light Aircraft, General Electric, Public Service of New Jersey, Commercial Solvents, Permutit, Baldwin Locomotive, Timken Roller Bearings and 4 to 5 points net higher. Columbia Gas & Electric, Brooklyn Union Gas, General Motors, Chrysler and American were among the scatter of issues to close a point or lower.

Foreign exchange trading was quiet, with European rates held steady. Japanese yen dropped points.

Oilfield operations in utilities, a broad front in the utilities, were advances of 1 to 5 points in general at one period of the day. Public Service of New Jersey and North American were prominent among those shares which neared new peaks. Buying in Public Service was stimulated by the announcement of its report for the 12 months ended May 31, last, showing earnings of about \$2,200,000 in the period over the previous corresponding period and a gain of \$1,600,000 in surplus available for dividends.

Closing stock prices with price tables and market news will be found on pages 34, 35, and 37.
